FOR NEXT GOVERNOR OF PENNSYLVANIA,

ADJT. GEN. D. H. HASTINGS,

Subject to the decision of the Republican State Convention

REPUBLICAN STATE TICKET.

FOR STATE TREASURER,

HON. HENRY K. BOYER,

of Philadelphia.

EDITORIAL BRIEFS

Gov. HILL is "Boss" in New York state.

FOUR murderers were hanged in New York on Friday.

THE farmers in France are asking for for more tariff protection.

EVEN Wallace says he is quite willing that Bigler shall receive the treasury nomination.

"PROTECTION" is still and will continue to be the watchword. Its beneficent results are daily more apparent.

STOP this farce of trying Fields and Nagle for the killing of Terry. The act was not only necessary, but commendable.

NOW it is Mahone again. This plucky and resourceful leader of Virginia Republicans was nominated by them for Governor on Friday.

THE telegraph tells us that King Humbert and Queen Margnerita, of Italy, have been excommunicated from the Roman Catholic Church.

THE Topeka Capitol says "it's a poor farmer who can't show that he threshed out forty bushels of wheat to an acre of Kansas soil this summer."

A FELLOW named Carlos D Graham, who wants to die in an exciting way, is just now shooting through the Niagara rapids, over the the falls, etc.

THE Democratic bulldozers of West Virginia worked hard and twisted the figures violently to count Goff out, and they succeeded. They were determined to count him out.

MRS. MAYBRICK, who was found guilty in England of poisoning her husband by the use of arsenic, will not be hanged. The Queen has commuted her punishment to imprisonment for life.

ANOTHER instance of a good citizen losing his life at the hands of a burglar occurred in Brooklyn on Friday morning. The man struggled with the burglar and received his death wounds.

THE latest dam to burst was one in Rhode Island. It was the Spring Lake reservoir. But fortunately there was not much helpless humanity in the way of its sweeping waters and the elements spent its force on the broad expanse of waste land.

THE only Prohibition results ever accomplished anywhere was by all prohibitionists voting for candidates who represent that principle whether they belonged to their party or not, as, for instance, the two associate judges in Huntingdon county.

THE fifty or more practical workingmen who went from this country to the Paris exposition are enjoying the trip. They made the journey through England in a methodical and profitable way, learning all they could of the people and their principal industries.

MONTANA has been suffering from destructive forest fires of late. In the past three weeks many hundreds of dollars worth of valuable timber has been destroyed by the flames, which in one instance, swept completely over a section 100 miles long and sixty miles wide in forty-eight hours' time.

INDICATIONS from every portion of the country point to reviving trade and a fair and prosperous business the coming fall and winter. It looks as if an era of renewed prosperity was about to dawn upon us. Wise action on the part of Congress next winter will materially help along the business boom.

THE Pittsburg Chronicle-Telegraph says: Here's another protection bone for the free trade New York Herald to pick. Last week the wages of the puddlers in the Columbia and Susquehanna Rolling Mills in Lancaster county, Pa., were advanced to $3.85 per ton, without solicitation on their part, yesterday they were further advanced to $3.90 per ton.

SOME RAILROAD FACTS.

Much of the development of the United States in the past thirty years has been due to the building of railroads. The Lancaster *New Era* recently contained the following article on the subject:

Poor's Railroad Manual is a work whose great value is recognized from one end of the country to the other. In recent years the authors have been in the habit of issuing a brief abstract of the contents of their complete book, and the one for 1889 now lies before us. It is a pamphlet of about thirty pages and is an excellent resume of the railroad system and situation in this country at the present time. From the fullness of its contents we abstract a few items of general interest which serve to show the extraordinary extent to which railroad building and railroad traffic have been carried in this country. At the beginning of the present year the length of the railroad tracks laid down in the United States was 156,081 miles, which was an increase of 7,028 miles during the year 1888. Railroad building is a costly piece of business, and we find that these many thousands of miles of road have cost or rather are capitalized at the enormous sum of $9,607,487,309. It is, however, stated that the assets of the roads, including cost of equipments, real estate and other assets, exceed the liabilities $266,483,063. Over these roads there were carried last year 451,353,655 passengers, or about seven times as many as the entire population of the United State or one and a half times as many as the aggregate population of Europe, Hardly less surprising is the amount of freight carried during the year. This was 589,398,317 tons, a sum so great that very few readers can fully grasp its significance.

Naturally enough, a plant that costs so much money ought to yield a great revenue. We find the income of all these roads during 1888 to have been been $950,622,008, of which $251,356,167 was derived from passenger traffic and $639,206,723 from freight, and the rest from other sources. The operating expenses during the same time were $653,-258,331, leaving as net earnings the large sum of $297,363,677.

The capital stock per mile of completed road is $27,768, while the average bonded debt is $28,972 per mile, which shows that between actual cost and the system of watering now in vogue the roads have been saddled with a debt of more than $57,000 per mile.

In extent of mileage, Indiana exceeds every other state, she having 9,900 miles to her credit; Kansas comes next with 8,854; Iowa ranks third with 8,364, while Pennsylvania makes a good fourth with her 8,226 miles. Of the states Rhode Island has the smallest mileage, only 214 being placed to her credit; Delaware does a little better with 314 miles.

It is interesting to note how the cost of transportation has been gradually decreasing, as better methods and appliances have been brought into service. In 1865 the rate charged for freight averaged three and six-tenths cents per ton, per mile; in 1875 it was a fraction less than two cents, while in 1888 it was slightly less than one cent. This proves that the roads are lowering their charges with commendable speed.

To move all the millions of tons of freight and the millions of passengers who travel on the roads requires a large equipment. The number of locomotives at present in use is 29,398; the number of passenger cars is 21,425; of baggage, express and express cars there are 6,827 and of freight cars 1,005,-116. Since 1877 the cars of nearly all the classes enumerated, including locomotives, have about doubled in numbers.

The United States now have nearly one-half of the mileage of the world. During the past eight years the quality of the roads has improved greatly. In 1880 only 29 per cent of the tracks were laid with steel rails; in 1888 the percentage was 72. While the amount of freight and the number of passengers carried has statedly increased, the cost of transportation has been lessened both to the companies and to the persons carried. In 1888 the average reduction of passenger rates was nearly a half cent per mile.

It is not easy to estimate the value the railroads have been to the country. We do not mean in the matter of speedy passage and freight transportation, but to the agricultural interests. It is estimated that over ordinary earth roads wheat will not bear transportation a greater distance than 250 miles when its value is $1.50 in the market. Corn can be carried only 125 miles when worth 75 cents per bushel. At greater distance these cereals have no commercial value, without the aid of railroads. But these latter, by transporting at one-twentieth the cost of common roads give a marketable value to wheat grown 3,000 miles inland and corn raised 2,500 miles from a market.

The Duty of the Hour.

The third party prohibitionists state in the resolutions adopted by the county convention that they do not believe in indorsing the prohibition candidates of another party because, in doing so, they will endorse a whisky party. Let us see if this is so.

What is the object of the third party prohibitionists?

Their first object should be to effect some results favorable to prohibition. What they should guard against most is to do anything which aids the cause of whiskey.

But their resolutions really mean that they will refuse to aid prohibition even when they can aid it and will do as they please even if that act is in the interest of whiskey.

They know that as a third party they cannot elect a candidate who has not the support of another party. We have not heard one of them deny this. They are aware that by endorsing the candidates of another party there is a chance for election. Then if that candidate, in his person, represents their cardional principal, is it not their duty to endorse him?

We think we can convince them of this by introducing another part of their resolutions, or, in other words, their resolutions must force them to support such Republican candidates as embody the principle of prohibition.

They speak of the Republican party as the only one of the great parties that is at all in sympathy with their object. That implies that the Democratic party is in sympathy with whiskey. Then it follows that where there is a Republican candidate who is even in advance of his party in representing prohibition, his election is a necessity, because his defeat would mean the election of the Democratic candidate, whose sympathies, according to these resolutions, are all with whiskey, hence the defeat of all they hold dear.

Either these resolutions which were published in this paper, contradict themselves or the Prohibitionists are compelled to endorse such candidates as embody their principles, especially when such candidates are in nomination for an office, like that of associate judge, in which such principle can be put into practical operation.

The argument against "supporting the candidates of license parties" is, in its bearing upon this question, a plausible fallacy which goes down very well with those who do not take the trouble to think the matter out. This paper is certainly as strongly opposed to license in any form as the *Voice* or any other prohibition paper, but it does not follow that we should make another man's assent to our views on that matter the only test of his qualification for office. If the face of a united, organized and powerful enemy we cannot afford to fight about methods with men who are is sincere sympathy with the cause for which we have taken up arms. Nor, as good citizens, can we afford to postpone for an indefinite period all other reforms in local government because the great majority of temperance men will not do as we think they ought to do.

THE *Watchman* asks us which of the members of the Court—Judges Furst or Rhoads—we doubt. That is a stupid question, but we will reply. We doubt neither, because each one says just what he believes. Judge Furst interprets the law to mean that license must be granted to applicants against whom no specific remonstrance is urged. We do not complain of his interpretation. Judge Rhoads does not believe the law compels him to grant any. Hence, knowing their positions, we want another Judge who will act with Judge Rhoads in giving Centre county prohibition. We know that the influence of Riley if elected will be to yet further increase the number of liquor licenses.

THE worn-out foolishness of trying to get up a scare over a negro uprising has been revived in Alabama, and may be an excuse for adopting harsh measures and perhaps killing a few of the race. According to certain Southerners the colored people are always on the eve of an uprising, but, strangely enough, the uprisings never materalize. There are no more civil, peaceably disposed people in the world than our Southern negroes, even under most oppressive treatment and constant deprivation of rights.—Pittsburgh Chronicle Telegraph.

A GOOD EDUCATION

All are agreed that every citizen of this country should be educated. But there are countless differences of opinion as to what the popular education should cover, and as to the manner in which it should be imparted. A few general observations on the subject may be of interest to those who are arranging the curriculums of the country schools for the ensuing winter. It seems that the most reasonable view we can take of education is that it should be a preparation for life. A proper and useful scheme of "teaching the young idea how to shoot" should be arranged with reference to what will be expected of the pupil after he has left the school. Studies of a purely theoretical character should be unhesitatingly discarded for those of practical benefit. Such will train the mind, and at the same time add to the useful knowledge of the scholar. But a theoretical education and a scientific training of the intellect are not to be undervalued. It has been well said that only two things are necessary to make a cultivated man, an inquiring mind and a library. But it is a sad fact that the first essential is rarer than the second. It is the duty of every teacher, therefore, to awaken the pupil to an intelligent interest in the world around him, and to show him how to make use of whatever powers he may possess. This is the true object of education. It should be strictly a training of the mind.

But there is no necessity of altogether neglecting those "facts," which the "Mr. Gradgrinds" value so highly. The very process of acquiring them will strengthen the mind and broaden the understanding. The object of education in this country being to make enlightened citizens, we must teach our children the fundamental facts upon which civic enlightenment is based. In arranging the courses of study in our schools it seems that these principles are not considered as they should be. A great part of the scholar's time in many schools is wasted in the profitless pursuit of useless learning. Where there is so much to be learned that might be of benefit in after life it seems a great injustice to force the pupil to devote himself to branches which cannot possibly assist him.

However we did not set out with the intention of finding fault, but of proposing a course of study which should be in accordance with the principles laid down above. Of course, all must begin with the "Three Rs.," 'reading 'riting, and 'rithmetic. Yet in the latter branch there is no necessity of going as far as many of the scholars in our schools do. Addition, Subtraction, Multiplication, Division, and a limited knowledge of Fractions are amply sufficient for the ordinary man. Indeed even those who study the mere abstruse parts of the subject, unless they are surveyors, teachers, etc, invariably forget all about them in a few years.

The leading facts in geography, should also be insisted on. But it is needless to cram the young people's brains with the statistics of every city in Europe, and the area of every little principality. It will be useful for them to know the names of the capitals and the populations of the chief countries of Europe and of our own states, but that is all. The time that is now spent in the acquisition of the countless details in the big geographies should be devoted to a primer of physics and to the principles of physical geography that the pupils might know something about the world in which they live. A little Botany would also be a profitable study.

But the greatest mistake that is made at present in our schools is the importance that is attached to the study of grammar. It is true that a general knowledge of the parts of speech and the structure of a sentence is of value. But this knowledge is only to be gained by reading and composition. How few of the teachers of our grammar schools, with the grammar at their tongue's end, either write or speak with even tolerable correctness. The writer well remembers a prize pupil of the State Normal School whose favorite expostulation to his pupils was "You hain't doing a hate." As for their power of composition, the editor of any paper knows from a sad experience how wofully deficient they are. Most men who do write good, flowing, correct English have learned to do so in a roundabout way, by first learning to write Latin or Greek. Instead of giving so much attention to the rules of grammar our teachers should make the scholars read the best books, and should require frequent compositions from them. In this way every one might be taught to write a forcible and readable style.

The history of England and of our own country should occupy considerable space that the pupil might know and understand the institutions under which he lives. The fundamental and uncontested principles of political economy should also be everywhere taught. The laws of Exchange, Supply and Demand, Prices, Rents, Banking etc, should be familiar to every citizen. We are constantly voting on such questions, and to do so ignorantly is suicidal to our prosperity.

Such are some of the principal branches that should have place in the corriculum. But in training the mind, manual dexterity should not be forgotten. A few lessons in carpentering, black smithing and machinery would be beneficial to every boy. While to learn how to sew and to cook would not do harm to any girl. In our country schools no attention is generally given to these things, but in many of our city schools they are receiving the consideration they deserve. A few years devoted to such studies as we have mentioned would make boys and girls fit sharers in the blessings of citizenship in our free country. They would be able to think and act intelligently as to all the duties, public and private, which would be imposed on them. They might not be able to repeat by rote thousands of disconnected facts, but they would know what would benefit them, and their minds would be open to new acquisitions. S.

THE Altoona Tribune says: "Hungarian coal miners are not always the cheapest in the end. A few more riots in which life and property are destroyed will possibly convince the owners of coal mines of this fact. Reduce a man below the level of a brute, pay him wages barely sufficient to sustain life, and keep him in ignorance and degradation, and you may expect riot, murder and incendiarism. Those corporations that pay their men respectable wages seldom have any trouble. And when they show their men that they have an interest in them, provide them with reading rooms and assist them to build homes, they soon pass beyond the sphere of the professional agitator."

THE announcement that the Republican League has determined to make a vigorous fight for the principles of Protection in the South has not put the Democrats in a very pleasant frame of mind. They see in this determination danger to the solidity of the South. A vigorous fight for this principle in the South is bound to make inroads upon the strength of the Democracy in that section and in the end prove a winning one and the Democrats realize it. This is the reason they are now busy trying to revive the race issue and keep their party solid on the principles of hatred to the negro.

THE Washington Press says: "Ex Congressman Sowden, of Pennsylvania, has been vindicated by the Democrats of Lehigh county. Last year, when Cleveland had his foot on their necks, they slaughtered Sowden in a cowardly fashion. When Cleveland prostituted the veto power in order to punish Sowden for opposition to the Mills bill his Democratic brethren at home had not courage. But now in this off year, in the land, Sowden gets a solid indorsement from the Lehigh cowards."

A CLOSE observer in agricultural matters says that the prospect that the wheat yield this year will be at least 500,000,000 bushels grows brighter as the days pass. The 500,000,000 mark has been passed twice only. In 1882 the production was 504,000,000 bushels, and in 1884 513,000,000. It is not altogether improbable that all previous records in wheat raising will be beaten this year.

AGAIN we would remind Republican voters that Thursday, September 5th, is the last day for registration and they should see that their names are on the list before that day. Do not defer registration until the last day. Voters who have changed their residence since the last election should be especially careful to see that they are registered in the proper district.

A TELESCOPE lens is now to be made that will measure sixty inches in diameter. By its aid it is hoped to find the soul of the man who is mean enough to beat a country editor out of his subscription.

GENERAL NOTES.

The keeper of a peanut stand in Newark is named Pizarro Cæsar.

Over 1,000 Chinamen arrived in the City of Mexico one day last month.

Philadelphia Hibernia Fire Engine Company, still in existence, was organized in 1752.

Mrs. W K Vanderbilt has decided to have a ball in her stable at Newport on August 31.

A Chattanooga man tried the other day to pawn his false teeth to get money to buy drink.

Mrs. Kesterson, of Fulton, Ky., has five sons, and the birthday of each of them is July 24.

Nearly every vessel clearing from San Diego, Cal., nowadays, carries from 10 to 11 tons of honey.

A 16-pound cannon ball came up in Walter Dixon's oyster dredge in Newark Bay the other day.

Ansonia, Conn., has a 2-year-old boy who cries for cigars, and smokes them when they are given to him.

A "highly-connected and respectable young woman" of Freeport, N Y, has been arrested for horse-stealing.

Thomas B Moss has just resigned the Principalship of the Meson, Ga., Academy, a position he has held for 41 years.

A supposed cat, killed with a stone by William Dennis in his yard at Drakesville, N. J., turned out to be a small red fox.

At a picnic at Mt. Gretna a base ball nine composed of clergymen played two games against the Germania club. Each club won a game.

W R Shadman, of Glynn county, Ga., has three acres of olives. His is believed to be the only olive grove east of the Rocky Mountains.

D J Charbonneau, of Williamsport, Ky., has a hen that is 14 years old. She has laid no eggs for four or five years, but is sound and hearty.

In Galway it is considered so unlucky to catch sight of a fox that fishermen will not put to sea if they notice one while going to their boats.

A mid air combat between a hawk and a snake afforded amusement for over 20 minutes to a party of picknickers near Mossville, Blair county, Pa.

An Addison county (Vt.) farmer has a colt that has learned to ring the farm bell by catching the rope in his teeth and prancing back and forth.

It is stated by one of the guides at the Capitol in Washington that 15 brides an hour is the averge number of visits to the statuary hall each day of the year.

Thomas Furlong, of Pasadena, Cal., is an ardent amateur naturalist. His latest addition to his collection was 300 tarrantulas that he hatched in an incubator

A 30-cent check for doughnuts was all Cæsar's wife got from her husband for four weeks. So, at least, Mrs. Cæsar testified in a Providence court the other day.

"Birch bark" lawn parties are the latest in Maine. The invitations are written on birch bark, and the refreshments served from plates of the same material.

There are 100 acres of land in Carroll county, Ga., for which no owner can be found. Gold has been found on the tract, and a number of people are anxious to secure a title to it.

Mrs. Gill, of Mulberry street, is the only woman shoemaker in New York. She made a pair of shoes before she was 14 years old, and has worked at the cobbler's bench for the last ten years.

A very old pear tree is now standing on the grounds of Mr. W H Smith in Richmond, Me. Its exact age is not known, but its identity can be traced back for 150 years. It still produces fruit.

Jules Verne's celebrated traveler who was supposed to go around the world in 80 days a few years ago, is now beaten out of sight. A letter makes the trip, via Vancouver, in 69 days, everything favorable.

Appleton Webb, of Waterville, Me., lost his gold watch while fishing in Paolin pond four years ago. The other day it was returned to him by a fisherman who discovered it lying on the bottom of the lake.

An umpire for a ball game at L'Anse, Mich., paralyzed a crowd of people by appearing on the field armed with a cutlas, a big musket, an ax and a spyglass. On his back was painted a big sign, 'You will please side with me.'

A number of Brooklyn capitalists have decided to open a hotel on the New York plan in Paris. They believe it will attract American customers as well as the trade of English persons who have visited the United States.

A Cadmus, Mich., farmer fed a flock of swine several gallons of cider which was not soft. The hogs went on a glorious old drunk for three days, and a few of them passed peacefully away, never realizing what had touched them.

Three schoolboys of Sompoc, Cal., thought they'd have fun this vacation playing gold mining. So they began on a wornout claim on the beach near Point Sal, and in 24 days, working not more than eight hours a day, made $540.

IT is time not only to have the site for the world's fair fixed, but the money should be contributed and the erection of the buildings commenced. The time is not far distant.

Poetry.

There's something attractive about her,
It isn't her beauty of face'
It isn't her ribbons or lace.
But there's something attractive about her,
And I swear that I can't live without her,
And that is the state of the case.

There's something attractive about her,
It isn't her glance or her smile.
It isn't her elegant style,
But I'm poor and I can't live without
For that something attractive about her.
You know, is the size of her pile.

And not a single one in town
Asked, Is this hot enough for you?

The days were wet, but they were cool;
There was no wrangling o'er base ball,
And peo. e said, this life is full
Of compensations, after all,

AFTER MANY YEARS.

Waverly Magazine

On the extreme point of the Headlands was a ragged boulder, standing, as it were, at anchor, for the salt waves beat in a circle round its base; and on its summit, swinging out with a daring recklessness that would have been appalling to timid, inland folk, a sturdy youth wearing the rude garb of a fisherman—that was Harry Melville. He broke out into a song—a rude nautical thing; but the old time air was sweet, and the voice that sung it wondrous clear and resonant, ringing out like a trumpet peal above the dash of the waves, yet sweet and tender as the note of a woodthrush. Over and over again he thrilled the quaint ditty, until every echo caught up the strain, and the whole place, and the great sea itself, seemed thrilling with melody.

Just then the door of the old farm house swung open, letting out a broad flood of lamp light and a slender girl's figure; and an instant later this selfsame figure, quaint and prim in its gown of gray, stood just behind the singer. He sang on, utterly unconscious.

"Harry!"

He was near losing his balance, and his song came to a sharp and sudden end, leaving the closing night in silence. The girl broke into a merry laugh.

"Well, Syria?" he asked.

"Nothing—only supper is waiting, and Aunt Sarah is growing impatient," she replied.

"Oh, that's all!" The eager light died out of his eyes, leaving them gloomy and abstracted. "I do not want any supper; I've made up my mind, Syria."

She gave a quick, gasping breath but face and voice were quiet.

"Well, Harry?"

"I'm going!"

"When?"

"At daybreak."

Her very lips paled, and her slender fingers shook and trembled, but her eyes remained true and steady.

"Well," she answered slowly, "God bless you, Harry?"

The boy stood silent, his eyes resting on the far coast line, where the receding fires were slowly burning out, his thoughts busy with the past. One night, especially, stood out clear and vivid—a wild, stormy night, when the sky was like ink, and the mad sea thundered until the old farm house shook to its very centre. They were down on the strand, his father and a half dozen fishermen—himself, a sturdy lad, following, like a young spaniel. Hard work lay before the men. A stately vessel lay out on the bar, and the strong gale was was driving her to pieces.

Boat after boat started out as her booming guns begged for assistance, but each one was swamped or driven back. It was mere desperation, an old sailor said; no boat could stand such a gale—they could do nothing. His father chuckled to himself, and bringing out a sturdy craft of his own, placed himself at its helm, and went out into the darkness, never to return again, the men averred; but Harry did not believe it. He had never known his father to fail, and he sat down amid the crash and roar to watch and wait. And not vainly; for by and by the sturdy boat beat its way back, bringing only one trophy, a little sea waif that the old man had picked up—a tiny girl child with flaxen hair and blue eyes.

The rough man bore her up to the old farm house, Harry trotting on behind; and before day dawn the booming guns were silent, for the stately vessel, after the brave fight, had gone down beneath the angry waves.

Capt. Melville and his wife could do nothing more or less than to adopt the little storm gift and bring her up as their own child. So they called her Syria, after all; and as she merged into maidenhood, the lads called her the "belle of the ocean."

She and Harry had been sister and brother for ten years, eating their frugal supper from the same porringer, and sharing the same bed in childhood; and in her maturer years they were undivided.

"Yes, the Black Dragon sails at daybreak and I'm going on her, Syria," he said, his eyes solemn and tender and his voice tremulous.

"The girl stood silent a moment; then putting the question with a forced laugh:

"How far are you going, Harry?" she said. "When do you expect to come back?"

"The Black Dragon's bound around the world, I believe," he responded, "and as to coming back—well, it will be years before I see the Headlands again, I guess."

Then a sudden light blazed up in his eyes.

"Shall you miss me when I'm gone, do you think, Syria?" he asked.

A swift rose color bloomed in her fair cheeks, and her eyes overflowed with tears.

"Harry," she said, her voice sweet with unspoken tenderness, "I'm superstitious, you know. I want you to take this with you," unclasping a slender gold chain from her neck. "I always had a fancy that this little trinket possessed some hidden charm. Put it on your neck, please, and if you ever are left to the mercy of the wild waves, it will save you, maybe, as it did me."

At moonrise everything was ready, and with his knapsack strapped across his shoulders, Harry stood in the doorway.

"Goodby, father!" his voice husky.

"Goodby, Harry. Make a man o' yourself before you cast anchor again."

"Ay, ay, father!"

Then he broke down, and pulling his cap over his eyes strode away without another word.

One after another the seasons followed each other. The gray moss on the old farm house roof grew larger and thicker; the old captain was getting rheumatic and dozed away the afternoons in the chimney corner, and Aunt Sarah was losing something of her old bustling activity.

Beautiful Syria! The promise of her girlhood was being developed into glorious maturity. But she might have been a pearl, as they called her, in her icy seclusiveness, for all the human feeling she seemed to possess.

Every day the Black Dragon was looked for, and every evening brought a disappointment.

At last, one golden afternoon, when the sunlight streamed in yellow bars over the sanded floor, and Syria had looped back the curtains with clusters of scarlet berries and sprays of wintergreen, and ranged the golden pippins in long rows on the mantle, in the very midst of their expectation the tidings came, brought from the city by a fisherman. The Black Dragon, homeward bound, took fire just under the line, and every soul on board perished. Harry would never come home!

A silence more solemn than death fell on the old farm house. Aunt Sarah sunk beneath the blow into feeble second childhood, and the old captain grew morose and sullen. Syria alone bore the blow bravely. Fair and white as a pearl, she moved about with sealed lips and solemn eyes, taking all the heavy household cares upon her slender shoulders and working from dawn till twilight. Then, when the hush of night brooded over the great sea, she took her sole recreation. Gliding down to the beach, she would clamber to the top of the rough boulder and sit for an hour looking out to sea, with her poor eyes full of piteous expectation.

"No," she said, "I won't forget; My little charm will bring him—I will wait."

At last there came an afternoon black with portentous omens.

"I never see sich signs as these at the Headlands only once afore, and then we had a gale that just shivered things—and we are going to have it again."

The old fisherman was correct; about sunset it came, with a thundering crack and crash, as if the very heavens were being rolled together.

"The guns have ceased," he said, putting on his oilcloth coat "The poor ship's gone. I am going down to the shore to see what the boys are doing."

"A bad night, cap'n, one of them said as he and Syria approached.

"Poor luck, captain—poor luck! We tried putting out the boats, but it was no go—the gale was too hard. We picked up only that chap, and he's done for."

Syria's eyes followed his pointing finger, and beheld stretched upon the wet sand the figure of a man.

"He's not dead, father!" she cried, "There's warmth here—indeed there is! Let's take him up to the house and try to save him."

"Do as she bids you," said the old man; and the men obeyed.

"'Tis he—your son Harry! Don't you see? Will you waste your precious time? Let us work and save him!" she said.

And they did. By and by a faint warmth diffused itself over his body; a dim red shone in his pale cheeks, and he murmured, just above his breath:

"Syria! Syria! I am coming!"

Syria heard him, and without a word or a sigh dropped in a dead faint at his very feet.

In a few days he entirely recovered and related his adventures. He had made his fortune and was coming home to stay, and no one was more happy than Syria.

But three weeks after there was a grand wedding at the old farm house. house. Captain Harry Melville received for his bride Syria, the foundling, the beautiful "belle of the ocean," and their cup was full.

THE QUEER HALLUCINATION THAT MADE A MAN WALK FIVE HUNDRED MILES.

WASHINGTON, Aug. 21.—Policeman Eaton was standing near the corner of Pennsylvania avenue and Seventh street this morning when he was accosted by a young German, who inquired: "Where does the President live?" Thinking that the young man was a stranger and wanted to get a look at the White House the officer directed him. As the stranger turned to go away his strange actions excited the officer's suspicions, and calling the young man back he asked: "What do you want to see the President for?"

"About the law," he replied.

The officer expressed a willingness to accompany the young man to the White House and the latter was only too glad to accept his services. Instead of going to the Executive Mansion the officer turned his steps toward the station house. On their way along the avenue the stranger volunteered the information that he came here from Springfield to see the President about a United States law compelling him to marry more than a million women. For marrying these women he was to receive $2,000,000.

"Why have you got to marry these women?" inquired the officer.

"Because I am so good looking," was his reply.

When the officer arrived at the station the young man gave his name as 'J. A. Schach, of all over the country."

PESTERED BY PRETTY WOMEN.

To a *Star* reporter he related the story of his troubles. He is 23 years old, and has been in this country for seven years. He has spent most of his time about the cotton mills of Springfield, Mass. Every mill he worked in he imagined that all the females at work wanted to marry him. In this way he was driven from place to place and was not permited to work in any factory more than three months. Finally the poor fellow imagined that Congress passed a law requiring him to marry all the females in the Massachusetts mills. When he married, them he was to receive the $2,000,000. Then his prospective wealth gave him more trouble than his prospective marriages. He imagined that he was the victim of a murderous conspiracy, and that he would be shot and robbed of his wealth. What to do he did not know. Finally he concluded to leave the State of Massachusetts and seek an interview with the President. He then discovered that the emptiness of his purse prevented his visiting Washington and so he started for one of the other New England States. He first wrote a letter from Springfield to the President. The letter was regularly registered and sent off by the Postmaster at Springfield. That letter was dated January 12, 1889. Not receiving an answer to the letter, Schach went to Hallowell, Me., from where, on the 23d of April, he addressed another letter to President Harrison. Then he continued sending registered letters from time to time until he had sent nearly a dozen.

THE PRESIDENT MIGHT HELP HIM.

Not receiving a reply to any of them he made up his mind to visit Washington and call upon the President. He made the start two months ago, and last night he entered the "Promised land." Yesterday was a bad day for him, as he was unable to obtain a meal on the road. It was after sundown when he struck the city, and having only 20 cents in his pocket he looked for a free lodging-house. Being unable to find one he entered a box car on the Baltimore and Potomac Railroad track, where his clear conscience permitted him to spend a comfortable night.

This morning when he arose he went to a barber shop, where he spent his last twenty cents. He paid ten cents for a shave, and the last ten cents he paid to the bootblack for a 'shine.' He was then ready to present himself to the President. The blacking covered the sections of his socks exposed by the holes in his shoes, and he presented as neat an appearance as a person could after a tramp of more than five hundred miles over the muddy, dusty and sandy roads. Having thus prepared his toilet he started out and fell into the hands of the police.

MR. GEORGE TICKNOR CURTIS, the eminent historian and interpreter of the Constitution of the United States and a very conservative jurist, sustains Attorney-General Miller thus emphatically; "There are a few observations to be made upon this occurrance. First, I desire to express my unqualified approbation of the instructions given by the Attorney General of the United States to the Marshall of California to protect the person of Judge Field by a special guard detailed for the purpose. In the absence of a special statute providing for such protection of the Federal Justices, it is the plain duty of the Department of Justice, when a particular Judge is known to be in peril from a lawless person to detail a guard for his protection. There could be no more suitable guard than the deputy of the Marshall. California is not, or was not on the day of this occurrance, a State in which the Attorney General of the United States could rely on the State authorities to protect the person of Judge Field under all the circumstances by which he has been surrounded since he punished Terry for an outrageous contempt of court."

A THRILLING EXPERIENCE.

Three Portland ladies, Mrs. George Bonar, Mrs. Frank Morgan and Miss Sallie Wiberg, had a thrilling experience on Mt. Hood the other day. They became separated from the party that made the ascent a few days ago, and spent the greater part of the dreary night on a barren rock 10,000 feet above the sea. A party consisting of three men and six ladies began the ascent at 10 o'clock in the morning, and in the face of a strong, cold wind reached the summit after a climb of six hours. The descent was made by 7 o'clock in the evening, and when noses were counted three ladies were found to be missing.

The alarm was given among the hundreds of campers on the prairie at the base of the mountain, and fifty men, armed with guns and lanterns, started out to search for the lost ones. All night the search was kept up and at 3 o'clock in the morning several signal guns were fired from the eastern slope of the mountain, near White River canon where one section of the searching party found the women perched on a large stone and huddled together to keep warm.

The ladies said, when rescued, that they had become separated from the party and wandered about for hours in the hope of finding the right road to the base. While doing so they frequently heard the screams of panthers and the howls of wolves. Fearing attack, they sought a place on the top of the rock where they were found. Miss Wiberg held their long alpenstock, with a sharpened iron belt in the end, their only weapon, and several times when wolves and panthers were growling about the base of the rock on which they were perchased, she made ready to use it in defense of their lives. Signals were fired to collect the rest of the searchers and the whole party marched down the mountain firing guns and shouting for joy.

Love in an Office.

Chicago News.

'Darling Bessie,' said Mr. Hoover to his lady typewriter, 'will you marry me? Since you have come like a gleam of sunshine to gladden my existence I have lived in the radiant light of your ethereal presence and passionately—'

'Please speak a little slower, Mr. Hoover,' said the fair typewriter, interrupting him, while her fingers continued to fly over the keys of her machine. "Etheral—presence—passionately.' Now I am ready to proceed.'

'Great Scott! Miss Caramel,' exclaimed her employer, 'you are not taking down my offer of marriage on that infernal typewriter, are you?'

'A proposal!' shrieked Miss Caramel. 'Why, so it is. I didn't notice. I thought you were dictating. Forgive me, dear William. I am yours. And now, since I have made this foolish blunder, please sign this paper and I will keep it as a memento.'

The marriage took place according to contract.

Strange Death of an Artist.

A curious accident, which unhappily has proved fatal, has befell M. Boutet an artist, residing in the Avenue Victor Hugo, the other morning. M. Boutet was working in his studio, when, inconvenienced by the sun, he asked his bonne to go on the roof and pass a light linen covering over the glass. As the woman was arranging this awning she slipped, and, falling through the glass, alighted on the table at which her master was seated. Oddly enough, she sustained no injury worth mentioning. M. Boutet, however, was not so unfortunate. A piece of the broken glass struck him on the neck, severing an artery. He tried to stanch the blood, and, failing, ran out of the house in the direction of a neighboring druggist's shop; but he fell down fainting ere he reached the place, and two hours afterward he breathed his last.

A Self-Reliant Miss.

Albany Journal, Saratoga Letter.

A party of girls, fair as the lily and as lovely as the day, sat chatting on one of the hotel piazzas. Said one of the number: "Girls, can you ever fancy anything as inconvenient? Fidele was taken sick this morning and I had to dress myself all alone."

"No!" in a chorus from the sympathetic listeners.

"Yes, really; and comb my own hair and button my own boots."

"Impossible! How could you ever?"

"Well, I didn't suppose I could, but I did; and," waxing confidential, "girls, that wasn't all. There was a hole in my sunshade and I mended it myself."

"Why, Sally, explain; do. Did you actually sew it?"

"No," with a little laugh, "but it was in the black panel and I just put a piece of black court plaster in under the place. See? And girls (are you sure there isn't a man around?) I mended one of my silk stockings, too. I put a postage-stamp over the hole; just this way."

Off came a pretty slipper, and, sure enough, right on the sole of the shapely little foot were the patriotic emblems of United States Post-Office, showing that the wearer was on the Saratoga side of the Atlantic and not on the Baden Baden side.

"I hear you are going away for the summer, Mrs. Satinet?"

"Yes; for a few weeks, at least."

"I shouldn't think you would care to leave Washington. I am sure you will find no more comfortable place."

"O, I know that. It is a dread bore to go anywhere else."

"Then why did you go?"

"Well, I'll tell you, sh! You see I have found a splendid family to take my house while I am gone, and—and—sh—the lady is as neat as a pin—and"——

"Well, Mrs. Satinet?"

"Well you know, the red ants—and—those other dreadful insects—you know the nasty things I mean"——

"Yes, yes."

"Well, they have got into my house and I am sure this lady will have them all killed off by the time I get back. I think I'm real lucky to get such a good tenant."

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing you will surely find relief by use of Electric Bitters. Sold at 50c. and $1 per bottle at W. C. Keplinger & Co's Drugstore.

—We are glad to see an announcement of the forthcoming marriage of John P. Dwyer, editor of the Renovo *News* to Miss Mary Ryder. The grand event will be solemnized on September 4. Everybody tells us that Mr. Dwyer is a splendid young gentleman and we wish him happiness—also his fair bride. All editors should get married and the average editor is quite a marriageable man. Within a very few days we expect to announce the marriage of Editor Francis Speer to Miss——. We won't tell her name for the other girls will be mad.

The motto of the proprietors of Dr. Henry Baxter's Mandrake Bitters is, "the greatest good to the greatest number," and so sell a large bottle of a valuable remedy for the small price of 25 cents, and warrant every bottle to give satisfaction or money refunded. For sale by F. P. Green.

THE FIRST TRIP FATAL.

A Special Train Containing the Most Prominent Men in Tennessee Meets With an Accident.

A dispatch, dated Thursday, from Knoxville, Tenn., describes a very unfortunate accident, as follows: A wreck occurred on the Knoxville, Cumberland Gap and Louisville railroad at Flat Gap Creek this morning.

The train was the first to go over the new road and carried a select excursion of the city councils' board of public works, representatives of the chamber of commerce and the very flower of the business and professional men of Knoxville.

The train of two cars left the track at a crossing and the rear car went down a trestle. Only one man in the car was uninjured. It was impossible to obtain medical aid for a long time and until 4.30 p. m. when the train reached Knoxville, scanty attention was rendered. Many had to be brought back on flat cars and the last part of the journey was made in a driving rain.

Three men died from their injuries and others cannot live. The dead are Judge George Andrew, the most prominent lawyer in East Tennessee; S T Powers, a leading merchant and former president of the East Tennessee Fire Insurance company, and Alexander Reeder, a leading politician who has held many offices of trust.

The injured are: Alexander A Arthur, president of the chamber of commerce. Isham Young, president and Peter Kern, members of the board of public works; John T Heam, editor of the *Sentinel*; W W Woodruff, a leading wholesale merchant; Charles S Rimour, attorney, and Alexander Willson, assistant chief engineer of the Knoxville Cumberland Gap and Louisville road; County Judge Maloney, Aldermen Barry and Hocking; General H Shubert, of the governor's staff; A J Albert, a wholesale merchant; Rev. R J Cook, professor at U. S. Grant university; City Physician West, Judge H H Ingersol, H B Wetsell, W B Samuels, C Abbie, Captain H H Taylor, S McKelder, Ed, Barker, J F Kinsoll, John B Hall, Philip Samuels, aged 10; R Schmidt, R A Park and one of the train crew.

Out of fifty six persons on the train forty one were injured. The most intense excitement and sadness is apparent here to-night.

The Service Pension Association Presents A Candidate for Prothonotary.

The Centre County Service Pension Association, feeling the growing necessity for the passage of a service pension law, and the repeal of the limitation of arrearages of pensions, and knowing that it can only be brought about by political action, and recognizing the early, able and continuous work of THEODORE P RYNDER, in behalf of this measure of *justice to the soldiers*, hereby present his name to the voters of Centre county for the office of Prothonotary, and earnestly solicits the support of all citizens. His election would allow him speak for us with the voice of Centre county; and the influence he has already exerted would be vastly increased. With properly backed exertions this law can be passed this winter and JUSTICE TO THE SOLDIERS be done, and the local tax payers relieved of a growing burden.

By order of
Centre County Service Pension Association.

Bellefonte, August 19, 1889.

AN IMPORTANT ORDER.

On Tuesday Pension Commissioner Tanner issued the following important order:

To the Chiefs of Divisions: The rule which was hitherto maintained in this office regarding proof of disability, under which the evidence of one commissioned officer, or one orderly sergeant, was accepted, while in the absence of that evidence, the testimony of two private soldiers has been required, is hereby so far modified that in the absence of the evidence of the commissioned officer or the orderly sergeant, the origin shall be held to be proven on the evidence of the claimant and one private soldier, provided always that said claimant and said private be men of reputable character.

A Dispatch From Brussels.

No doubt the readers of our article on the "Congo Railway Project" will be interested to know how the enterprise progresses. There is a growing interest manifested by the customers of the Eureka Grocery Co., in this scheme to penetrate the dark continent with a railroad, although we have not heard any of them say yet that they would buy any shares.

On August 1st we received a dispatch from Brussels which shed further light upon the subject. The dispatch is as follows:

Eureka Grocery Co.,
Bellefonte, Pa., U. S. A.

BRUSSELS Aug. 1, 1889.—The Congo Railway Company was regularly constituted here on Wednesday. Of the proposed capital of 25,000,000f. the Belgian State has subscribed 10,000,000f. and the founders 5,000,000f. The public subscription will soon be opened simultaneously at Brussels, London and Berlin for 10,000,000f. in twenty thousand 500f. ordinary shares. If you would like an office opened in Bellefonte please let us know. If you could sell a few thousand shares there we could pay you a good thing in stock, and let you in on the ground floor.

It is believed here that it will be impossible for the King of the Belgians to continue his immense pecuniary sacrifices for the benefit of the Congo State, and that the assistance of the Belgian government will soon become necessary in order to conduct the enterprise to a more successful issue.

We have consulted with some of our wealthiest customers in regard to the request, as to whether we should have an office in Bellefonte, and we find them all too much interested in railroads and other projects, here in the United States, to think of investing money so far away.

Our Mr. Smith has opposed any investment in Africa ever since this scheme was proposed to us. He thinks we had better build the new line to connect with the Beech Creek at Mill Hall, and we guess he is right. As to letting us in on the ground floor, he does not think there is much in that, as in his opinion if anyone wants to get on the floor in Africa at present it would be on the ground, as the country is too "blamed hot" for comfort on the roof.

The fact is Smith is purely American in all his ideas: He does not see any good in going away from home to find opportunities to invest money, or do good, and thinks the philanthropist who always looks over the shoulders of his neighbors to do good to some people who live away beyond the setting sun, often do it as much for an excuse to do no good anywhere as anything else. He regards it as a truism not to be disputed that there is work enough at home for all who want to make the world better for their having lived in it.

We have many evils right here that need to be corrected. Our laws are not observed, especially our Sunday laws. Many places of business are run as lively on Sunday as any other day in the week—that is, people say so. We have business enterprises here that languish, that might be built up by a little effort. We have schools that should be endowed (now he is hitting on the Academy, Car Works, Glass Works, etc.) We have new fields that need to be developed, of iron ore and coal.

In fact, there is work to do in every field of science, literature, art and internal commerce, to call forth all our energies. Let us make America the grandest country on the earth; let us make our people the purest and best, the most learned, the most cultured, and let Bellefonte and Centre County be the centre from which all these virtues radiate. Finally let all the people buy their groceries at the Eureka Grocery store, next door to post-office, Bellefonte, Pa., and be happy.

The Soldiers' Orphans' School.

The soldiers' orphans' schools commission met in Harrisburg Monday afternoon and ratified the contracts for the White Hall, Butler, Jumansville, Harford and Loysville schools. It was announced that the Northern Home for Friendless Children in Philadelphia, to which had been allotted 170 children at $110 each premium, had refused to take any children except girls or boys between the ages of ten and twelve years. The commission had notified the managers of the school that they must take what is given them or none at all, and that they would be heard on that question at Monday's meeting. No representative of the home appeared, and it was decided to remove the children from the Northern Home and place them in a school to be rented by the state. The owners of the Mount Joy school offered to rent the building to the state for $500 a year, the commission to make necessary repairs, or $1,000 a year and the owners to make repairs. The school at Chester Springs was offered to the State for $1000 rental per year. It was decided to rent Mount Joy school for one year, and at the end of that time the children will be put in other schools. The state will have entire charge and the present ownership, have nothing to do with its management.

How to get ahead of Trusts.

Several months ago there was considerable anxiety among millers and dealers about the price of wheat. We had some of them coming into the Eureka Grocery store every week posting us as to the condition of the wheat market. "If you want any flour better get it to-day, for we raise the price tomorrow, fifty cents a barrel, and it will go higher." We said: "There is no need of this, there is plenty of wheat in the country," "Oh no;" said they," wheat is scarce, it is not the speculators, there is an actual shortness in the crop. I tell you what it is, we have not got the wheat."

But now the crop year has closed without the enormous foreign demand which was predicted and those who attempt to reconcile their calculations of deficiency in supplies with the actual state of the markets here and abroad, find their task very difficult, except upon the supposition that:

First—American consumption was diminished by the unnaturally high price of wheat and of bread during part of the year about as much as the estimated loss in practical supply by deficiency in weight of last year's crop. For the returns correspond closely with the usual estimates, without the allowance on the one hand for deficiency in weight or on the other hand for reduced consumption.

Second—Either the accepted European estimate of last year's yield was below the truth or the consumption in some European countries fell below the usual average. The latter supposition is apparently the more reasonable, because it is known that about 70,000,000 bushels of corn were exported from this country, of which a considerable part was probably used instead of wheat.

There are symptoms of a similar state of things in the sugar business. Statistical authorities have asserted that there was going to be a scarcity amounting to famine. But all their reckonings were based upon the notion that the world would buy and consume as much sugar costing over 10 cents as it consumed a few years ago of sugar costing less than 5 cents. There was no reason in such a calculation.

We, at the Eureka Grocery, have found that the sales among our customers have diminished considerably, which we expected, and which we considered the right thing for them to do. Our customers know how to handle these trusts, they are aware of the fact that increased price stimulates increased production. While at the same time it lessens the consumption, and they help the trouble along by economising.

Let them pile up their sugar, say they, we will use less so as to let them carry as heavy a load as possible. West India refining sugar, which sold in London at 10s. 3d per hundred weight two years ago and 12s. 6d. one year ago, sold at 20s. 6d. at the end of June, and it would be one of the most marvelous events of the time if no decrease in consumption should result from so great a change in cost.

But it is easy to see that all the calculations of the speculators and the trusts are likely to be defeated, if there has been on both sides of the ocean any considerable decrease in the quantity of sugar consumed. A decrease of only one-tenth in the consumption in this country, which is a smaller shrinkage than might have been expected with a rise of 70 per cent in price, would almost balance the estimated deficiency in the whole world's supply, and a like decrease in Europe would leave the reduced supply more than 200,000 tons in excess of the reduced consumption. Whether any such decrease in consumption has appeared abroad may not be accurately ascertained for some time to come, but we are certain that it has begun here in Bellefonte.

The consumers have always this one irresistible defence against trade monopolies and etortions. Forced to carry great stocks in order to control the market, the monopoly can always be crushed by a moderate economy on the part of consumers. The French copper syndicate had at command many millions of capital, but a shrinkage of a quarter in the world's consumption of copper broke down the combination in a year. Any American can without serious deprivation cut down his purchase of sugar more than a tenth, but a shrinkage in consumption to that extent would soon put the Sugar Trust into difficulties.

So you see we have a remedy against these trusts, and the Eureka man advises all to economise in the use of sugar, until it is brought down to a fair price, or the trust "busted" and serve them the same way every time they form a combination to raise the price of the necessaries of life. The Eureka man is of the opinion that there is no more cruel oppression than for the wealthy, for greed and gain, to combine to make flour, sugar, salt, etc., that the masses must have, cost them more than the price that would be fixed by the law of supply and demand. When the laboring man asks for an increase of wages, he is told that the law of supply and demand is an irrevocable statute by which all must be governed, and that they must expect to be controlled by it; to which we think should also be added all those things which the people buy. And if any class of men try to set aside that law let the people compel its observance, as indicated by the Eureka man—that ever watchful and faithful friend of the best interest of the masses.

We had an article on trusts some time ago, which, no doubt our readers remember. We do not like them, they are not right, set down on them. At the same time call at the Eureka Grocery store, High St., next door to Post-Office, Bellefonte, Pa., and buy all your groceries. We will give you the best and the lowest prices we can, and when the sugar trust breaks down we will come down with the sweetening just see we don't.

HENRY SHAW, a very philanthrophic citizen of St. Louis, died in that city on Sunday morning.

BE sure that your name is on the registry list by September 4th, if you have any desire to vote at the next election.

A NUMBER of eminent Republican speakers are about to go to Louisiana to take part in a Congressional campaign in the great sugar district. If this style of missionary work is permitted to be done there, the Southern Democratic representation in Congress will be cut down very materially.

AFTER nearly two years effort the Democrats have succeeded in manipulating the vote of West Virginia to show a majority in favor of their candidate for Governor, General Goff. To accomplish this they had to throw out hundreds of Republican votes, including those of one entire county. It is one of the most atrocious political frauds of the age.

THE Williamsport *Gazette and Bulletin* thinks that "the highest possible tribute to the efficacious benefits of the protective system has been paid by those English capitalists who during the last few months have manifested an intense eagerness to invest their money in American industries. But it is a compliment of which Americans may well look askance and the continuance of which they may well discourage."

THE SCHOOL BOOK TRUST.

"The Terror of Trusts" was the scheme selected by Rev. T. J. Probst, of Chicago, for his theme a few days since; in handling the subject he did so without gloves. Mr. T. P. Rynder should have been present to have heard him denounce the School Book Trust, which he accomplished in the following energetic language:

"Of all the outrageous, inhuman actions of the terror the school book trust is the worst. The heartless robbers were not content with a profit that would satisfy a Shylock. No, they bear down upon the children of the poor, squeezing from the puny bodies the last drop of blood left by other remorseless trusts. They were not satisfied with a profit of 200 per cent., over and above the original cost, but said to the poor children.' "Your money or no education."

The above is from the Houtzdale *Observer*, and we reproduce it to show Mr. Rynder's Centre county friends that his work in proposing the only possible means by which to destroy this remorseless robber of the present and next generation is held in remembrance away from home. Mr. Rynder's plan is the "publication by the State of a uniform series of school books to be furnished free or at cost to the school children of the Commonwealth." It is right and its adoption cannot come too soon.

THE Louisiana Democrats are at their old tactics and are determined that no Republican shall be elected to Congress in the Third District, though the district is rightfully Republican, if bulldozing and terrorizing will keep Republicans from organizing. No Republican meetings are to be permitted. A meeting was called for St. Martinsville, to be addressed by Miner, the Republican candidate, but was prevented by a band of regulators, which, 150 strong under command of Captain Voorhees, rode into the town and warned the colored men against assembling They were so effectually intimidated that they took to their abodes and no meeting was held. This plan of campaign, it is reported, is to be carried into effect throughout the district: This is an outrage against free speech that can not be passed by unnoticed, and which Congress has the right and ought to examine into. If a Democrat is returned to Congress by such method he should be thrown out of his seat in that body. If there can be no fair election in these southern districts they ought to go unrepresented in Congress, until the people learn wisdom enough to have a fair expression of the people's will. If they won't allow this of their own accord, it ought to be afforded them, under the protection of the United States Government.

A President on Brandy for Sickness.

The President of the Baltimore Medical College, Dr. Byrd, who has thoroughly tested Speer's wines, etc., says:

I have prescribed Speer's Port Grape Wine with marked and decidedly beneficial effects. I am prepared to bear testimony to the value of his Pedro J Brandy, also, as a pure and valuable article in all cases of disease in which a reliable stimulant is required. I would be happy to feel that I was instrumental in inducing my fellow citizens to patronize these productions, to the exclusion of the foreign "doctored," and harmfully adulterated wines and brandies with which our people are often injured. HARVEY L BYRD, M D.
President and Professor of Obstetrics and Diseases of Women and Children, Baltimore Medical College.

THE colored troops in Hayti did not all fight nobly as President Legitime has taken French leave, and General Hyppolite is now in undisputed possession of the field. This is a result that has been for some time thought likely to occur. Hyppolite being now master of the situation, the natural effect will be to make outsiders "wonder what he will do next." The reports seem to indicate that things are in a somewhat chaotic condition in the dusky island. Our Government is taking prompt measures to establish proper diplomatic relations with whatever may be found to be the real party in power in Hayti.

FIELD MARTHALL HALSTEAD says that if New York wishes to capture the great exhibition of 1892 she must build a tower at least 500 feet higher than the Eiffel structure at Paris. When Chicago hears this she will quickly decide to build one 500 feet higher than New York and double the height of the Eiffel. Chicago cannot be bluffed by brag.

WHILE the Democrats in Atlanta are burning a Republican postmaster in effigy because he appointed a colored man to an office the Democratic Newark *Journal* is trying to persuade the colored men of New Jersey that they ought to vote with the Democracy because the Republicans give them no patronage.

"I cannot praise Hood's Sarsaparilla half enough," says a mother whose son, almost blind with scrofula was cured by this medicine.

INSTANTLY KILLED.

LORIE HEISLER, SON OF MR. CHARLES HEISLER, CRUSHED BENEATH A PONDEROUS BOILER.

On Thursday afternoon Mr. W. B. Maitland and his workmen were engaged in loading a large iron boiler on to the cars near his boiler works. A strong rope was wound three times around it and heavy timbers made an inclined plane from the ground to the cars. Up this inclined plane the ponderous boiler was rolled—a usual way of loading boilers, as we are informed.

Lorie Heisler, the son of Mr. Charles Heisler, was working regularly about the works, and at the time was standing on the timbers assisting in the work by placing blocks beneath it to help keep it in position. The men were working as rapidly as possibly to get the heavy piece of machinery on the car before it must be removed to make way for an incoming train. We are informed that Lorie had been warned by Mr. Maitland to be careful and we are also informed that the boy was quite deaf and may not have heard the caution. Anyway, in an unfortunate moment, the rope which fastened the boiler slipped, the heavy machinery rolled backward, and in an instant Lorie Heisler was in eternity.

The boy must have been bending forward and had his head very near the boiler at the moment. His body, unharmed, fell down between the heavy timbers, but the entire top of his head was crushed by the massive boiler.

The body was carried into Mr. Maitland's boiler works where it was placed in charge of an undertaker. A jury was summoned to examine into the cause of death, which reported as follows:

State of Penna. } S S.
Centre County }

An inquisition indented and taken at Bellefonte in the county of Centre on the 27th day of August, A. D. 1889, before me, Samuel F. Foster, J. P., of the county aforesaid, upon the view of the body of Lorie Heisler, then and there lying dead. Upon the oaths of S. A. McQuistion, H C Crissman, H D Landis, Charles Beezer, Lafayette Mulhollen and Lawrence Fusser, six good and lawful men aforesaid, who, being sworn to inquire on the part of the Commonwealth, when, where, how and after what manner the said Lorie Heisler came to his death, do say upon their oaths, that the said Lorie Heisler came to his death by accident while helping to load a boiler at the Bellefonte Boiler Works, the rope having slipped while loading the said boiler, and the said Lorie Heisler being caught between the boiler and the skid, thus crushing the top of his head, and causing instant death. They further report that after hearing considerable evidence, they find that Mr. Wm. Maitland, the proprietor of the Boiler Works, was very careful in the management of his works, and that he frequently cautioned the said Lorie Heisler to be very careful about accidents happening him; and we find that the said Wm. Maitland is in no way responsible for any negligence, and that the death of Lorie Heisler was purely an accident.

In witness whereof as well the aforesaid Justice of the Peace as the jurors aforesaid, have to this inquisition put their hands and seals on the day and year and at the place first above mentioned.

SAMUEL F. FOSTER, J. P.,
S A MCQUISTION,
H D LANDIS,
J L MULHOLLAN,
CHARLES BEEZER,
LAWRENCE FUSSER,
H C CRISSMAN.

We understand that Lorie was only fourteen years old. He was a bright, industrious lad and a regular attendant at the Methodist Sunday school. He was the only surviving child of Mr. and Mrs. Heisler, and they have the sincere sympathy of everyone in their hour of bitter trial.

The Late Lorie E. Heisler,

The terrible accident which so quickly caused the death of Lorie E. Heisler, on Tuesday afternoon, was the occasion of general sorrow throughout this community. He was the only remaining child of Mr. and Mrs. Charles Heisler, two others having preceded him to the grave. Of course, this fact as well as the additional fact of his exceptionally sad and sudden death causes the greatest grief to his parents, to whom it was a blow of the severest kind.

Lorie was 14 years of age on the 20th of this month, which was just a week before his death. He was quite ambitious to work and earn money and applied frequently for a position in Mr. Maitland's employ before it was at last given him.

Mr. Maitland much admired Lorie for his industry and perseverence and none feel more depressed than he over the sad affair.

The funeral will take place at 2 o'clock on Thursday afternoon at his parents residence on Willow Bank street.

The Art of Prosperity.

The Eureka man has been doing for some time past considerable advertising, and as I do not want to get all the good there is in this world, let my brother merchants take a word of advice from me. Some have said to me, "Well, you can afford it, it don't cost you anything." But listen. I do not get it for nothing. The Eureka Grocery store pays for every line of advertising it does, and I have not put a single column into the papers that has not paid two dollars for every one spent by myself or that would have to be spent by any other store in town that would attempt the same thing. And we are now just beginning to reap the full benefit of this labor.

Ask anyone at all acquainted with our business and they will tell you that it is constantly increasing; that it has constantly increased ever since we began, and that our success is due to newspaper advertising. I do not want to be the only merchant in town that can truthfully say that while all around us works are stopping, men are complaining that work is dull, that the Eureka is the only store whose business is not feeling the depression.

I am conducting three newspapers in this town and I can now speak from experience when I say to you that it will pay you to advertise in these papers; that it will help you much more than your wildest fancy dreams. I will set the Eureka advertisements into the remotest corner to give you the best place, or just the place you want.

People will read the Eureka articles any how, no matter where I place them. Now, believe me, "it is straight," I know it will do you good, and in the light of my own experience I advise you to try it, and if any of your customers want anything you have not got send them to the Eureka Grocery store, next door to Post Office, Bellefonte, Pa., and we will supply them, and then look out. You may never get them back again, but if you don't we will blame that on Smith, that is if you are in the grocery trade.

Tell me not that advertising
Is at best an empty dream,
For its charms are more surprising
(and the Eureka man, who has tried it tells you plainly that its effects are far more astonishing.)
Than its dull old-fashioned practitioners
could ever deem.

And which ever way thou turnest
Thou will find upon the whole,
Those who advertise in earnest
(Yes, we have only to glance at the most successful firms all over the country to see that those who do the thing properly)
Soonest reach the wished-for goal.

Wouldst thou then a lesson borrow?
Would'st thou know the royal way?
Advertise then so to-morrow
(Don't let a little expense deter you; you are merely casting your bread upon the waters, and you will soon have the satisfaction of knowing that each to-morrow)
Finds thee richer than to-day.

Advertise then! No retreating!
Let the senseless crockers rave:
While your heart with hope is beating
(You will always find a lot of people in Bellefonte as everywhere else who are blind to their interests; but while you are making fame and fortune)
They will find oblivion's grave.

Printer's ink will lead the battle—
Printer's ink, the balm of life;
Printer's ink—no din, no rattle—
(No, it does it's work on the quiet; and in the great war of competition which is now going on in this town, when judiciously and thickly laid on, it always)
Leads the van against the strife.

Advertisers oft remind us
We can make success sublime,
Make our pile and leave behind us
(Exactly, that's just where it comes in. We not only expect to feather our own nest, but we at the Eureka hope to provide for the prosperity and well-being of generations yet unborn, and so leave behind us)
What defies the touch of time.

Seeing which, perchance another
Struggling man with weary brain,
Some non-advertising brother,
(A good example is always to be commended, especially in the matter of advertising; and many a struggling business man seeing the secret of our success)
May with wisdom try again.

Advertise then: Up and doing!
So advert a meaner fate,
And, the wiser course pursuing,
(You will find that you will soon be in a position to look the world in the face, if you will only)
Learn to advertise and wait!

Of course, there are many ways of advertising, but we are of the opinion that there is no form or method so effective as newspaper advertising. It goes right into the home, and it goes to stay. I do not suppose that an "add" of "New Spring Goods," put in the paper and never changed the year through would do the work it should. I never tried that method. Such an "add" would have to do its most effective work, at least I should think, in the first three months.

Personally, we have always looked upon such work as a public notice that here is a careless merchant. But if you will take hold of this matter, and give it the same attention that you would or should give any other important matter, it can not do otherwise than pay. I speak to you in the light of a year's experience and "I am giving it to you straight."

SUNDAY SCHOOL CONVENTION.

MEETING OF THE CENTRE BAPTIST ASSOCIATION IN PHILIPSBURG.

Special to the Altoona Tribune.

PHILIPSBURG, Pa., Aug. 27.—The twenty fourth annual convention of the Sunday schools in the Centre Baptist association convened with the Baptist church here to-day.

The convention was called to order by the president. Mr. S S Miles. After devotional exercises, reports from the schools were heard, from which it was learned that ninety scholars were baptized during the year; that there are 2,375 scholars, teachers and officers in the thirty-one schools composing the association, and that $1,750 was raised for school and benevolent purposes.

Rev. N C Naylor delivered an address on "The Relation of the Bible School to the Cause of Foreign Mission." This was further discussed by Revs. J T Bradford, W J Coulston, D J Williams, S F Forgeus, Misses Blanche Keynolds and Sallie Dysart. This proved to be a very interesting and profitable subject.

Rev. J T Bradford delivered an address on "Levity and its Results in the Sunday School," which was also discussed by Revs. H Harris, Ph. D., D W Hunter, and D J Williams. Rev. W J Coulston delivered an address on the "Mutual Rights of Superintendent, Teachers and Scholars," which awakened quite a lively discussion, full of helpful suggestions, and participated in by Messrs. McDivitt, Williams, Boring, Townsend, Henry, Bradford, Lloyd and Sprague.

K A Lovell opened a discussion on "Politeness in the Sunday School," and was followed by others.

The following officers were elected for the ensuing year:

President, R W Hudson, of Saltillo; vice president, Eli Townsend, of Philipsburg; secretary, Robert McDivitt, of Huntingdon; treasurer, S E Henry, of Huntingdon.

There is a very full delegation present from the Bible schools and all addresses and discussions were more interesting than usual.

CRIME AND CRIMINALS.

"Guilty" and "Not Guilty"—Business Quickly Dispatched.

WHAT WAS DONE IN ONE AFTERNOON.

On Monday morning Mr. Frederick Kurtz was made foreman of the Grand Jury. They quickly considered the bills and by noon had three true bills ready for business. During the morning two Germans took the oath of allegiance to the United States and promised to become good citizens. The Judge told them to inform themselves in regard to the constitution of the United States which they had sworn to obey.

Robert Scott, a resident of Rush township, was charged with selling liquor without license and also selling on Sunday. Henry Hollabach said that he had purchased and drank liquor at Scott's place. Hollabach's wife testified to the same thing. The testimony of other witnesses was indefinite. The plea of defendant was changed to guilty and the court told him to pay $550 fine, costs and spend six months in jail.

John D'Armitt found himself before the Court for assault and battery and also for throwing a stone through the window of Mr. Noll's store at Pleasant Gap and also a stone at the door jamb. He was drunk at the time, and his assault was one that was entirely unprovoked. He acknowledged his guilt and the court told him to pay $30 fine and spend three months in the county jail.

A female had a surety of the peace case in court, which came next. But the Court did not allow it to proceed far before he told the female who brought the case to pay costs and remain committed until sentence is complied with.

Frank Miller, aged 22, confessed to having taken money, watch and clothes that did not belong to him. As it was his first offense the Court sent him to the Huntingdon Reformatory.

Ellis Gramley is the son of James J. Gramley of Rebersburg. He is 18 years of age and works for the Wash Ore Mining Company. When Ellis was ill he walked to the engine house, where William Webner plagued him about his illness. Gramley used some offensive epithets to Webner for which the latter struck him violently, making his nose bleed. This furnished the substance for an assault and battery trial, which was also concluded, by finding the defendant guilty, for which the Court sentenced him to pay a fine of $30 and costs.

Jennie Weller, prosecutrix, vs. Charles McClenahan, f. & b.

Another candidate for the Huntingdon Reformatory appeared in court on Tuesday. He was Charles Mayes, who plead guilty of larceny. He is nineteen years of age and we hope the Reformatory will indeed be a place of reform to him.

Maggie Spiece must go to jail. She was tried for and found guilty of larceny.

The article taken was a jersey jacket from Mary Ann Low, of Enterprise mines. Assault and battery was also a charge against her. Ninety days in jail, said the Court.

This paper has contained nothing about the affair in which Jacob Kepler, of Forest county, and James Potter of Bellefonte, were the participants, because the published accounts are mixed and we believed the trial would straighten things out. But it looks as if the trial has made the crooked affair worse confounded. Mr. Potter prosecuted Mr. Kepler for assault and battery. Editor Kepler is a large man; Mr Potter is not large and is slightly crippled. While Mr. Kepler was staying at his property in this county Mr. Potter called on him to collect the pay for two sets of reaper knives purchased from Harris & Co., hardware merchants. Mr. Kepler became angry and ordered Potter to leave. He was departing when Kepler struck him violintly, knocking him against the fence. C. M. Bower, Esq., made an excellent address for for Mr. Kepler and Jno. G. Love, Esq., spoke very eloquently for the prosecution. The Court's charge was a lucid and learned exposition of the law as bearing on this case. The jury was out a long time, and at length brought in a verdict of "Not Guilty, but Kepler to pay the cost." We have yet to hear of one individual who was not surprised at the verdict.

—Mr. Thomas Farley, of Brookville, who was a brother of Mrs. James Colwell, of this place, died suddenly on Saturday. He was working at the time near that place. He was afflicted quite suddenly with rheumatism which must have affected his heart and caused his death. He was a strong, healthy man, never knowing a day's illness and his sudden death was a shock to his friends here. He was in excellent financial circumstances, which is certainly a subject of congratulation as he leaves eight children. Mrs. Colwell and others here who were related to deceased departed on Saturday to attend the funeral which occurred to-day.

—Eighteen years ago last Monday one of the worst wrecks which ever occurred on the Philadelphia and Erie railroad took place at McCormick's curve above Westport. Both engines of the colliding trains, forty freight cars and the baggage, express and smoking cars of the Erie mail train were piled in a shapless mass. Seven persons were killed, among whom was conductor James Ward of the freight train, who was a resident of this place and a brother of J M Ward, the base ball player. Patrick McCormick, the engineer of the passenger train, was then 28 years old. He was seriously injured and for eight months was confined to his bed. When he went to work that morning he had not a gray hair in his head, when he reappeared from his sick bed his hair was as white as snow. He is now employed in the railroad shops at Renovo, having never returned to work on the railroad.

Fairbrook News.

Most of the farmers of this vicinity have thrashed and report the grain to be good both in quality and quantity.

There is to be a reunion of Co. E. 45th Regiment, on September 3d, at Beileyville where they started from 28 years ago. They are expecting many soldiers of other regiments. A free dinner will be served in the old fashioned way. We hope the day will be favorable for every one expects a good time.

Miss Laura Meek, formerly of this place, is now in Greeley county, Kansas, visiting her friend, Mrs. Proffitt, who was Miss Campbell of Fairbrook.

Fairbrook Facts.

The people are very anxious that this week shall be a busy and rainless one.

There was a social party at the residence of Mr. George Gray. It is reported that they had a very pleasant time. The iadles there were Nannie Campbell, Hannah Meek, Elizabeth Carter, Mamie Campbell, Mattie Ewing, Mary Gray and Tennie Ewing. The gentlemen were J B Krebs, J M Campbell, J W Carter, J B Campbell, I M Carter, Newton Krebs and Clay Campbell.

Mrs. Briket, of Stormstown, paid a short visit to her sister, Mrs. Meek, of this place, last Sunday.

Mr. John Gray and family of Bellefonte came to his father's farm on a short visit and returned home on Monday to his store.

Miss Esther Ewing returned home last Saturday with the escort, Mr. John Gripp, of Tyrone.

Mr. Harris Bloom and wife recently visited their uncle, Jacob Carter.

The young people of this place are trying to organize a singing class for Prof. J A Weaver. We hope all will attend and make the singing more of a success than in the past.

If you want to enjoy yourself next Saturday go to Pine Grove Mills.

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public.

Merit Wins

Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System.

Hood's Sarsaparilla is sold by all druggists. $1; six for $5. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

IT IS ONLY GOSSIP.

A Letter from Mr. Jerome M Bell in which He Denies Certain Rumors.

PHILADELPHIA Pa., Aug 21, 1889.

ED. DAILY NEWS—*Dear Sir*: I have been informed by letter of certain gossip in Bellefonte concerning Mr. C A Harte, Thos. McQuillan and myself being represented as a kind of combine to take money from the men for an unholy purpose. The facts so far as I know are as follows: About two months ago Mr. H. called my attention to the fact that two Hungarians who had beendischarged claimed that Mr. McQuillan had demanded money from them. The men had gone. Mr. McQuillan denied being in the habit of taking money from the men. Of all the men I could find who could understand English none claimed to know of any such proceedings. The matter dropped there. I heard nothing further until August 15, when rumors came to me. I improvised a kind of court to make things savor of the law. We had a right decent hearing, and due respect was shown the Court, excepting a big fight which was nipped in the bud.

One man made affidavit that he had given McQuillan $12 for his good will, without any solicitation on the part of McQuillan, another of having given a purse of $6 without any solicitation. Another, who was supposed to have been a donor, denied it under oath, but the next day (August 16) wanted to make a new affiidavit charging having given $10, but he had no interpreter with him, and I, having been dismissed from duty, did not bother any more with the matter. The above were all we could find out of some forty men present who had any charges to make. Mr. McQuillan denied all the above charges under oath.

Now, as to whether he took any money from the men or not I am not able to say. He and all his men were laid off on August 15th, on account of there being no work. For the information of those who seem to be worried about the movements of Mr. Harte and myself would say that on August 16 I received a letter from Mr. Harte, as secretary, saying that "on account of the stopping of the furnace and uncertainty of starting, my services would not be required after date." I immediately packed up and went in search of something to do. I have found employment. Mr. Harte is still connected with the Centre Iron Company, by way of putting its affairs in shape. The likelihood is the matters will soon be fixed up and the furnace started. I will not again be connected with the Centre Iron Company. I have a high regard for the gentlemen who have their money invested in the Centre Iron Company. All whom I have met have treated me nicely. My best wishes are for the success of the company, which concern ought to have the support of the community. The gossip, I am informed, that is going the rounds is not calculated to help anything. I don't know who is doing the talking, nor can I imagine that it is done out of maliciousness, but infer it is done by an idle, gossipy mind, begging not to have it repeated as coming from him, and who would not have the moral courage to acknowledge the wrong to the person injured.

Yours truly,
JEROME M. BELL.

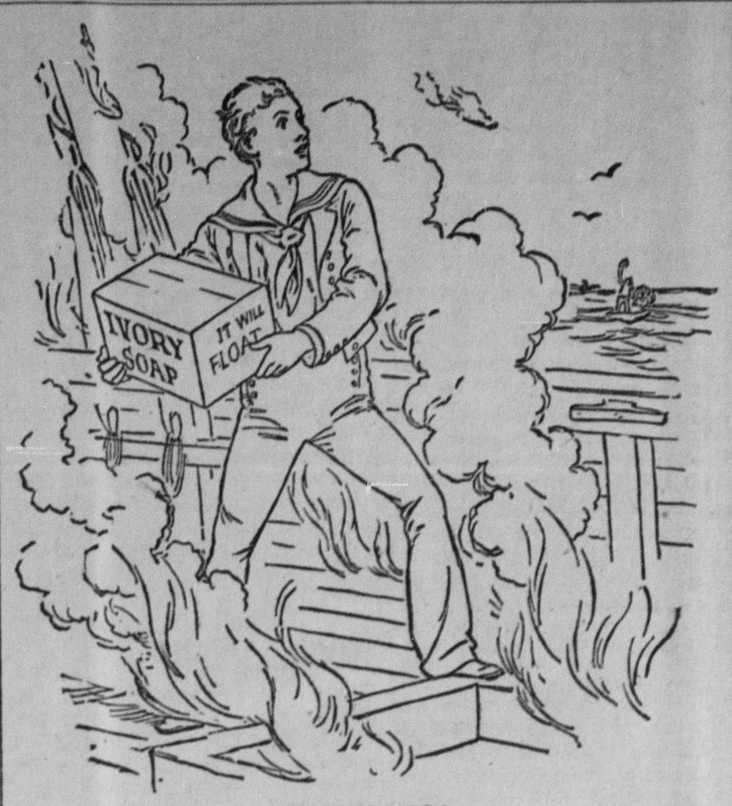
A Military Event.

On Saturday, September 7, an interesting military demonstration will be made in this place. There will be an attendance of several distinguished military officers and delegations of the National Guard. The Fifth Regiment Drum Corps will be here in command of Drum Sergeant Calvert, of Altoona, and it is said to be the "crack" drum corps in the State and whoever listens to it will hear military music of the finest description. Company H. of the 12th regiment, Lock Haven is expected to send a goodly delegation to take part in the affair. Last, but by no means least, Col, Burchfield and his staff are expected to give dignity to the occasion by their presence.

Among the exercises will be a sham battle and a variety of pleasing military manoeuvres. The evening attraction is expected to be a festival to be held in the Court House yard. This military *fete* promises to be an event of entertainment and importance.

Honey is Scarce.

Those who are fond of honey will find this season that their wants are not likely to be supplied, except at a price much higher than on former occasions. Reports are being received from the honey producing sections showing that a short crop at best will be received in New York. Already the English dealers have made contracts for nearly all the honey that can be gathered from California and elsewhere at a much higher price than it commanded last year, with the result that most of it will be shipped direct from the places of production. The eastern crop comprising that product in New York, Pennsylvania and New England has been injured by the heavy rains, and there are many unfilled sections in the combs already inspected and gathered. The only hope of a fair supply is from the Western sections, embracing the States of Illinois, Wisconsin, Minnesota and vicinity.



CASABIANCA.

THE boy stood on the burning deck,
Whence all but he had fled;
He saw amid the cargo's wreck
A box, and, calling, said:

"Say, father, say if I may sit
Upon this box and wait?"
And then without his sire's permit,
Down on that box he sate.

"Say, father," once again he cried,
"My patience is clean gone!"
And but the booming shots replied,
And fast the flames rolled on.

Then came a burst of thunder-sound—
The boy, oh! where was he?
Upon the box, high did he bound,
Then floated on the sea.

For 'twas a box of IVORY SOAP,
And buoyantly it bore
That gallant child, who ne'er lost hope,
Safe to the sandy shore.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

THE CHARLES A. VOGELER CO., Baltimore, Md.

150 YEARS OLD.

A Longevity Story from California that Beats the Elixir.

A special from San Francisco says: For several years there has been domiciled at the Monterey County Hospital an old Indian known by the name of "Old Gabriel," who is believed to be over one hundred ond fifty years of age. Gabriel was born in Tulare county, but during childhood removed to the town of Monterey. Father Junipero Serra arrived in Monterey, in 1770, and it is well authenticated that at that time Gabriel was a grandfather.

Father Junipero taught Gabriel the art of cutting and laying stone, and at the time of the building of the first chapel, in the years 1771 and 1772, Gabriel assisted in the construction of the walls. Gabriel still speaks proudly of the skill he acquired as a stone cutter. Father Sorrentini, the priest, and Bishop Amat reached Monterey sometime in the year 1845. The former says that "Old Gabriel" was then living with his sixth wife. An old lady by the name of Castro, who died years ago at the age of ninety-five, in testifying to Old Gabriel's age, said that when a child she saw old Gabriel, and that at the time he had children several years older than she was. Up to within two or three years Gabriel was a familiar figure on the streets of Salinas City, but now he is rarely seen. He has always been fond of striking colors, and for years wore a coat made of cloth representing all the colors of the rainbow.

RESOLUTIONS ADOPTED AT THE LAST STATED SESSION OF COMMENDABLE CASTLE NO. 280, K. G. E. OF PENNSYLVANIA, HELD AUG. 21, 1889.

WHEREAS, It hath pleased God in his wisdom to remove from our midst Brother, Sir Knight, Mitchel Lucas, who died August, 16th, 1889.

Resolved, 1st, That while we bow in humble submission to the will of God, we do not the less mourn for our deceased brother, who has been taken from us.

2nd. That in the death of Brother Lucas, this Castle mourns the loss of a brother who was ever ready to proffer the hand of aid to brothers in distress, whose utmost endeavors were extended for the welfare of the Castle and Sir Knights.

3d. That in the death of Brother Lucas we have lost a friend and companion who was dear to us all.

4th. That we deeply sympathize with the bereaved mother and friends of the departed brother, in this their time of affliction, trusting that He who has afflicted, will comfort them.

5th. That we drape our charter for thirty days as a tribute of respect to our departed brother.

6th. That a copy of these resolutions be sent to the bereaved mother and to the newspapers of this county.

7th. That these resolutions be entered on our minutes.

Memorial Resolutions Adopted by Odd Fellows.

SNOW SHOE, Aug. 23, 1889.

A committee appointed by Snow Shoe Lodge, No. 226, I. O. O. F., to draft resolutions concerning the death of our worthy brother Mitchell Lucas, report as follows:

WHEREAS, Death has invaded our beloved order and broke a link that binds our fraternity in Friendship, Love and Truth, when our worthy brother was striken down in the prime of life; and

Whereas, The demise of Brother Mitchell Lucas should admonish us to so conduct our lives that our works of love and charity will remain bright lights to guide future generations long after our bodies return to their native dust.

Whereas, In accordance with the inevitable laws of nature our beloved Brother Mitchell Lucas, a worthy member of Snow Shoe Lodge, No. 226, I. O. O. F., departed this life August 16, 1889, in the 81st year and 2d day of his age—

Resolved, That while we mourn his loss we will cherish his memory and try to imitate his good acts during his sojourn amongst us;

That we tender to his mother and the friends of our late brother our sympathy in this their bereavement, and commend them to the care and protection of Him who doeth all things well.

Resolved, That our charter be draped in morning for the space of thirty days and that each surviving brother wear the usual badge of mourning, and a copy of these resolutions be forwarded to the mother of our deceased brother and to the county papers.

IDEALISM.

If in the dawn of the daylight,
If in the dawn of the spring,
Between life's blue and its gray light,
Joy doth some glad hours bring.

Hold them not less for their seeming,
Close to them cling for delight,
Though these be but daylight dreaming
And the rest be but dreams of the night.

All things but come in a gleam, or
Are bubbles that burst on the stream
Of time, for thou art the dreamer,
And life itself is the dream.

FOR THE NATIONAL GUARDS.

Annual Brigade and Regimental Matches to Take Place in a Few Days.

General Hastings has just issued an order regarding the annual brigade and regimental matches, which will be shot this year at Mt. Gretna range September 2d, 3d, 4th, 5th and 6th, under direction of Colonel Louis A. Watres, general inspector of rifle practice. The regimental teams will consist of four men and two reserves, the matches will be shot under the same rules and conditions as last year. The state will provide a suitable trophy to be shot for the brigade teams, and the condition of the match is as follows Teams to consist of twelve men and three reserves, who must be certified by the commanding officer of the respective brigades as having been members of the National Guard of Pennsylvania in good standing and in continuous service from and after the first day of February, 1889.

The teams shall be selected by the acting inspector of rifle practice of the respective brigades, and from the men on the ground who report with the regimental teams and reserves as elsewhere provided. Distance 200, 500 and 600 yards; seven (7) shots at each distance; no sighting shots; no previous practice on day of match. The trophy will be finally awarded to the brigade team winning it three times.

Transportation will be furnished to six men from each regiment. The men will receive six day's pay and subsistance, will be quartered at the range in tents and furnish their own blankets. The range will be open for practice at 8 a. m., Monday, September 2. The regimental match will take place on Wednesday, September 4, and the brigade match on Friday, September 6. Batteries and troops of cavalry will be permitted to enter teams if they so desire. Each regimental team will be expected to be present Monday morning, and may, if convenient, arrive on Saturday, and will leave for home Friday evening or Saturday morning.

About the Bucktails' Reunion.

Copied from the Philipsburg *Journal*.

Capt. C.T. Fryberger was unanimously called upon to preside, and said he never apologized on a call to duty, and was pleased to greet the veterans of the late war, and he could assure them that was the sentiment of the entire community. After a piano and violin duett by the Misses Jewitt, the president called upon W. Bryson, Esq., to deliver the address of welcome.

Col. E. A. Irvin, of Curwensville, in his address, paid an eloquent tribute to the War Governor in the following which we quote :

We meet in the centre county of our State, of marvellous beauty and rich resources. Her rugged mountains, clear streams and fair landscapes, have given inspiration to her sons. She boasts a proud line of patriot soldiers comprising the honored names of Lucas, Henderson, and Sichammer of Potter and Gregg. Her early history is but a record of honorable industry and patriotic achievement.

But here in this presence, in the county of his birth, speaking for the soldiers living and dead who composed the 215 regiments which Pennsylvania gave to the armies of the Union, I want to thank you for giving to this commonwealth as governor in 1860 your most distinguished son—Andrew G. Curtin. (Loud applause.)

To Our Neighbors.

The question is often asked by our neighbors, "Where I wonder, can I get a pure stimulant?" It is a fact that there is scarcely a roof under which you can not find a stimulant of some kind. Old people prolong life with it; sick people have it to sustain life; well people may and do use it to make life more enjoyable, but where will we advise our readers to buy it? We learn from the most reliable source that Max Klein is one of the most popular and respected citizens of this country. At his home his word is taken unhesitatingly. To him we can cheerfully recommend our readers for anything in the liquor line. He authorizes us to say that for $1.00 you can buy one quart of six year old rye, or six quarts for $5.00. His "Silver Age" at $1.50 per quart is without doubt the best whiskey know. Send for price list and complete catalogue. His address is, Max Klein, 82 Federal St., Allegheny, Pa.

—The reception given at the residence of Mr. Tobias Greene, at Milesburg, on Thursday evening, in honor of Mr. Earnest Eddy, was an entire success About thirty-five guests were present and all enjoyed themselves as long as time would permit, the only exception being Mr. Lee. Ryuder, whose countenance wore an expression of slight disappointment because his best girl went back on him. The refreshments were especially excellent. Mr. Eddy has postponed his return to Lock Haven until Saturday.

Idleness is a Dangerous Fault.

In the kidneys. When inactive they speedily fall into disrepair. Those obstinate and fatal maladies, Bright's disease and diabetes, ensue with terrible certainty upon the inaction of the organs affected. Catarrh of the bladder, enuresis, gravel and strangury are also to be apprehended from a partial paralysis of the bladder, of which weakness and sluggishness are the cause. Hostetter's Stomach Bitters is a fine tonic and promoter of activity for the renal organs, and one which can be relied upon to afford them the requisite stimulus without exciting them—an effect to be feared from the unmedicated alcoholic excitant of commerce. A further beneficent effect of the Bitters, by renewing activity of the kidneys, is to enable them to drain from the blood in its passage through them, impurities productive of rheumatism and dropsy. Nervousness, fever and ague, constipation and dyspepsia are conquered by the Bitters.

Wedding Bells at Boalsburg.

Wednesday of last week was a glad and joyous day to many people in Boalsburg. It was the occasion of a wedding, and that event always causes smiles and happiness.

Never to a greater extent than in this instance, Mr. D E Kreamer and Miss Annie Condo being the contracting parties. The wedding was consummated at the home of Mr. and Mrs. James Price, of Boalsburg, grandparents of the bride, at 10 o'clock a. m. There were present sixty-five guests made up of representatives from all parts of the county, including several from Bellefonte and Milesburg.

After the ceremony a dinner was served and after that was duly discussed and the numerous presents admired the wedding party came to Bellefonte. They were accompanied by many friends and even as they were entering the cars here the rice, that oracle of good luck, was hurled after them in abundant quantities. Their honeymoon will be passed down by the beautiful sea and may constant happiness be their portion.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at W. C. Keplinger & Co's Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints, Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size $1. Every bottle warranted.

Labor Day Approaches.

The last session of the Legislature set apart Sept. 2 as a legal holiday, to be dedicated to labor, under the name of Labor Day. Labor Day being a legal holiday in this State, the banks will not be open for business, and consequently all notes, drafts, bills, acceptances and similar obligations maturing and payable at banks on that day will be due on the previous business day. As the holiday falls on Monday, Sept. 2d, the previous business day will be Saturday, Aug. 31, the intervening Sunday being a *dies non* in the business world.

They have been making quite an extended tour and are very excellent. The best picked nine that Bellefonte can produce will be opposed to them and it is confidently expected that Bellefonte will be victorious. The game will be intensely interesting and the attendance of citizens will be very large.

THE SCHOOLS.

When they will begin—Changes that have been made in the length of of the School year.

Soon the attendants of the Bellefonte schools will be hunting up books and other apparatus preparatory to their attendance at school. The time for commencing the term of the various schools has been fixed.

The first to begin will be the schools in the stone building. All of them will begin on Wednesday, September 11, at 9 o'clock a. m. All the grades below the High school in the brick building on Bishop street, will begin on Thursday September 12, at the same hour.

The High School will not open until Monday afternoon, September 23. The time has been made later than usual because of the fact that so many of the pupils attend the Grangers' picnic that it is useless to begin until that festivity is over

The school term for certain grades have been lengthened to nine months. This long term school will be for the Primary and 1st Intermediate grades, as follows: In the stone building, the schools taught by Misses Wright, Fox and Weaver; in the brick building, the schools of Misses Levy and Powers. While it is deemed advisable to lengthen the term of all the schools it is begun with the schools indicated, as the children attending them are not needed to help their parents in Spring and Fall work and can perhaps find it more convenient to attend school than can the older pupils of the higher grades.

It is a good move and the School Board seems to be doing good work.

Took First Prize.

The State board of pharmacy recently analyzed twelve of the most popular medicines in order to see whether they were what they were recommended to be. After two weeks of careful work, they awarded the first prize, a gold medal, to Messrs. A. P. Orddway & Co., proprietors of Sulphur Bitters, it being in their opinion the best and only strictly pure blood purifying medicine in the market.

A Young Lady's Appointment.

Miss Mary Wagner, of Harrisburg, is to be appointed one of the female deputy factory inspectors authorized under the recent law.

Miss Wagner is a lady of much ability and intelligence and will fill the position with credit. The petition for Miss Wagner's appointment was circulated during her absence from the city, and while she was searching for weeks in the Johnstown ruins for the bodies of her brother-in-law and sister, Mr. and Mrs. Vincent Webber. She was not aware of this move on the part of her friends and consequently it was great surprise to her.

On the petition are the names of every prominent business man, merchant and manufacturer in the city. A separate petition contained the names of every prominent newspaper man in Harrisburg. Adj't Gen. Hastings, through his high regard for the young lady, whose untiring work at Johnstown elicited his admiration, also interested himself in having Miss Wagner's name slated for the position.

Card of Thanks.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expression of gratitude which come to him daily from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

—The flowers in C. M. Bower, Esq's, yard are still blooming most magnificently. He has also a wonderfully productive garden with cucumbers, corn, tomatoes, cabbage, salad, etc., yielding in a most wonderful manner. The plot of corn is not large, but bushels of ears have been taken from it. We saw cucumbers that were apparently about two feet long. But the lovely flowers are the greatest attraction. The vines have resolved themselves into a committee of one devoted to the exclusive duty of bearing blossoms, and they do it to perfection. The house is surrounded and the lawns are bordered with stretches of blossoms which are brilliant in color.

—Johnstown's new opera house, planned by Mr. George Plowman, of Philadelphia, will seat 1,500 people in a pinch, and is expected to be ready for occupancy in October.—*Altoona Times.*

How uncomfortable! Just think of sitting "on a pinch" during all the long opera of "Martha." Cannot Mr. Plowman plan some seating apparatus which is more comfortable?

—If anyone hereabouts desires to rear young ducks in an economical way he can get valuable pointers from either Linn Harris or Harry Jackson. Their method, as we learned by observation, is to tie a grain of corn to a string and with it they can successively feed each duck in the flock.

New and Wonderful Preparations.

PSYCHE'S SECRET,

OR EXTRACT OF ORIENTAL ROSES FOR Beautifying the Complection Making the Skin Soft, Fair and Rosy as a Healty Infant's.

A MIRACULOUS preparation, that imitates nature to such perfection as to positively defy detection, even with a microscope. Renders the skin semi-transparent, and harmonizes with the blood color of the face, making the pale cheek a beautiful roseate tinge. Imparts wondrous beauty to the skin, and brilliancy to the eyes; it is entirely different from any other preparation of the kind, as when applyed it remains fixed for at least twenty-four hours, and *will not wash or rub off*, and yet, remember it is not a paint.

Psyche's Cream of Oriental Roses, An unrivaled preparation for the skin, guaranteed to contain nothing injurious. Cannot be detected. A substitue for face powder, etc., removes Tan, Freckles, and cures all skin diseases making the skin as soft, smooth, and fair as that of a healty infant.

EDISON'S ELECTRO-CHEMICAL-FLUID.

For the Permanent Removal of Superfluous Hair.

From the Forehead, Lips, Chin, Arms, or any portion of the Face or Body, without Pain.

AFTER centuries of fruitless study and research by the world's ablest chemists, we have at last discovered a liquid preparation which we guarantee to permanently remove superfluous hair from any part of the face or body in TWO MINUTES, *without pain or injury to the skin.*

There are many dilipatories for the removal of superfluous hair, but all of them are either inefficacious or of little moment. The Electro-Chemical Fluid on the contrary, effects its purpose thoroughly and permanently. It supersedes the razor, renders the scissors unnecessary, and is WARRANTED to remove superfluous hair completely, totally and radically extirpating the disfigurement, leaving the skin smooth, soft and natural.

Price per bottle, - - - - $2.00.
Large bottle, containing four times the quantity, - 5.00.

DEATH OF A YOUNG LADY.

Miss Nora McClain (Sister Mary Alma) Expires in the St. Vincent Convent at Spuyken Duyvel, N. Y.

People who were residents of Bellefonte a dozen years ago will remember Miss Nora McClain, daughter of Mrs. McClain of Allegheny street. She was a beautiful and popular young lady—a member of the Roman Catholic church. At the age of about sixteen years she went to Mt. St. Vincent Convent, near New York City, where she received a very thorough and brilliant education. Though young, accomplished and generally a favorite, she decided to devote herself to a strictly religious life and became an inmate for life of the institution. It is the principal convent where ladies are fitted to enter and take part in the work of other institutions of the kind in New York City. The name given her there was "Mary Alma," and as Sister Mary Alma she was known to all the people whom she met there. During some time her religious life led her to assist in the gracious and benevolent work in a foundling hospital in the city.

It is not often that ladies who have thus entirely renounced the world return to visit their homes; but Sister Mary Alma seems to have been a favorite in the convent. Four years ago she visited her home and friends here in company with one of the other Sisters of the institution. Her health was then noticeably delicate and it was supposed that she was afflicted with heart disease. She went again to the Mt. St. Vincent convent, where her declining days were passed.

Her friends here were notified this week of her serious illness, but the letter was addressed to her sister, Miss Ella, who was away from home. Her mother, whose eyes do not permit her to read very carefully, merely glanced at the letters and laid them aside for Miss Ella when she should return, not noticing the bad tidings which they contained. So when the telegram came on Friday telling of her daughter Norah's death at 8 o'clock that morning the announcement was received with crushing force, and for some time it seemed that consolation was impossible.

But the hope that she could again look upon the face of her daughter before she should be consigned to the final resting place comforted her and, accompanied by her son, Mr. James McClain, she started on the fast line Friday afternoon for New York City. The funeral occured there on Sunday.

The deceased had been in the convent eleven years and her age was about 27 years. Miss Ella McClain is the only surviving sister, but there are several brothers who will sincerely mourn her death. But, it seems to us, that all grieved friends may be more than consoled by the reflection that one who had counted all earthly things as dross and had been willing to relinquish them to serve with a single purpose the religion she loved, has entered into that heavenly rest prepared for the true servants of God.

An Important Industry Desiring to Remove to Bellefonte.

A communication has been received here addressed to the Board of Trade. But as that sometimes useful institution has sunk into innocuous desuetude we publish it that it may be seen by any business men or combination of such business men as care to take action in the matter. It is certain that if the company is what it represents itself to be the opportunity of obtaining it is such as would be eagerly taken advantage of by the business men of some communities. Here it is :

No. 1224 Market street,
PHILADELPHIA, Aug. 1889.

To the Citizens or Board of Trade;

What inducements can you offer us to remove to your city the entire plant of our staple, solid shoe manufacturing business, established 16 years. Name and goods well known to the majority of the shoe dealers in the United States. Employ 150 hands which, with their families, will add about 450 people to your town. If desired will send you our proposition. Respectfully,

Sollers Shoe Manufacturing Co.,
J. E. Sollers.

The public benefactors who thus give their time deserve to be noticed.

PROHIBITION CONVENTION.

A Complete Account of the Recent Gathering Held by that Party at Unionville.

Pursuant to a call issued by County Chairman Walter Gray, the Prohibitionists of Centre county met in convention in the Union church in Unionville, August 20, 1889. In the absence of some of the delegates J Zeigler led a half hour's devotional service, after which J W Bedford was elected temporary chairman. An interesting and well timed speech was made by M B Laning, setting forth plainly that the Prohibition party is still alive and quite active, and that the blow dealt it on the 18th of June only developed the fact more fully that nothing need be expected from either the Democratic or Republican parties to favor the Prohibition of the liquor traffic; and, hence, it is sheer folly to remain in them, expecting to accomplish anything in that direction. Many points well taken were set forth by the speaker which greatly encouraged all present. On motion, convention adjourned till 1.30 p. m.

Promptly at that hour the convention reassembled, and was called to order by the chairman, who requested Rev. A K Felton to offer prayer, after which permanent organization was effected by the election of officers.

W Gray presented the order of business.

A committee on resolutions, consisting of J Zeigler, Isaac Guss and A J Cook was appointed, and while they withdrew for consultation the convention proceeded to nominate candidates for delegates to the State Convention at Harrisburg on the 28th (next Wednesday.) After the nominations were closed it was decided to vote by ballot, Jona. Packer and Alf Peters being appointed tellers. The following were declared elected as delegates with instructions to appoint their own alternates, viz., J Zeigler, J W Bedford, F Potts Green, A K Felton, J B Kerns, Clevan Dinges —— Bouse, A J Cook.

The committee on resolutions then reported through Isaac Guss, secretary of the committee, which is given below and the resolutions considered and adopted. In accordance with the seventh resolution, W Gray, Isaac Guss and A K Felton were appointed a committee to formulate rules for the government of the future conventions of the Prohibition party in Centre county.

W Gray then made a statement of the finances, saying that "The Centre County Prohibition party owes nobody *anything*," and was accorded a vote of thanks for his generosity by the convention. The sum of ten dollars was immediately raised to defray the current expenses of the convention.

It was agreed to pledge twenty five dollars to State work—for the county—and on motion the convention adjourned.

J W Bedford, Chairman
J Zeigler, Secretary.

PREAMBLE AND RESOLUTIONS.

We, representatives and members of the Prohibition party in Centre county, in convention assembled, this 20th day of August, 1889, do hereby declare the following, to wit:

Whereas, Non partisan Prohibition by Constitutional Amendment has, within the last three years, suffered eight successive defeats in as many different states; in addition to which the repeal of the Amendment in Rhode Island, demonstrates beyond cavil that Prohibition without a prohibitory party behind it is impracticable; and,

Whereas, The Republican, the only old party even laying claim to sympathy with our cause, has in its recent State convention declared for high license, ignoring even a promise of Local Option to the *twenty nine* counties giving majorities for the Amendment; thus, and in numerous other ways, furnishing convincing proof that the liquor men remain in, and continue to dictate the policy not only of the Democratic but of the Republican party. Therefore, be it

Resolved, First, That we deem it the height of folly to try to convert a party from the error of its ways, by remaining in said party, and supporting its policy as dictated by the enemies of our cause.

Second, That if High License, as claimed, was a step toward prohibition, it should have insured instead of prevented the success of the next and final step, on the 18th of June last.

Third, That however pronounced in their temperance views the nominees of the old parties may be, they are unworthy of our support, because placed in nomination by powers already in affiliation with liquor men: hence, their personal views and temperate habits cannot consistently command our suffrage; for, in electing them to office we raise into power their party, and consequently a liquor party, the dictates of which they are pledged to obey

Fourth, That in County, State and Nation we will persistently and earnestly, by voice and by vote, support that party and that party only which by the liquor dealers is avoided and feared, and by the old party leaders is spurned and ridiculed, while its votes are coveted and its voters if possible bribed; knowing, that in this course we are right because we are acting contrary to the wishes of the foe we encounter.

Fifth, That in view of the treachery of the Republican leaders of our State in submitting the amendment to hold the temperance vote, and enacting so-called "high license" to effect its defeat when submitted, allowing a defect which gave the Supreme Court a pretext to nullify the best provision of said law immediately after it had subserved its purpose in defeating the Amendment, and now audaciously thrusting us aside with a proposal to remedy said defect, which they can not even pretend to accomplish for at least a year and a half—in view of all this, it behooves us as good citizens of the Old Keystone State to make our Commonwealth in fact as well as in name the keystone of the arch that shall bridge the chasm into which our Nation must inevitably plunge, if corrupt politicians, under the lash of the whisky eligarchy, shall continue to rule.

Sixth, That while we may honestly differ as to minor points we should be willing for the sake of harmony on these points, that, the majority should rule; remembering that unlike either of the old parties we have at least *one issue* on which we all agree, *that* issue is *Prohibition*. And we invite to full party fellowship all who on this one dominant issue are with us agreed, believing that our party can and will remove sectional differences, promote national unity, and insure the best welfare of our county, State, and Nation.

Seventh, That this convention appoint a committee of three to formulate rules for adoption at our next nominating convention, for the future government of our county conventions and delegate elections.

Committee { J. Zeigler, Isaac Guss, A. J. Cook.

The Time to Eat Ripe Fruit.

An exchange, in telling people what to eat this weather, thus expresses the importance of ripe fruit as a regular article of diet: The very desire we have for it, and the relish it excites clearly indicate that the juices of the body find in them the very elements they most need, that the body may be healthy and its parts work in harmony, and in agreement with the rest of nature and our general surroundings. We eat ripe fruits with relish, because they supply an element of food most desirable. There are seasons when animal foods of a substantial kind are the best, because of the greater waste on the one hand, and a higher temperature is demanded from the more substantial food, which is the only one then accessible. But the ripe fruits of the season compensate for the customary animal foods, and because the natural and most desirable food of the season. The change of season necessitates this change of diet, and it is a wise provision of the Creator to adapt this change of food supply to the comfort, well being and gratification of our taste.

Place a well prepared meal of animal food and another of ripe fruits before a family of children, and they will all prefer the fruit meal at this season. In like manner the birds of the groves and the forests, and almost every living thing in a wild state prefers the fruit in fruit season to animal food. It is the luxuriant season, the time of the year when the food is more of a dessert than a substantial meal. And indeed, after babyhood is passed, ripe fruit diet is the next most wholesome food for a young family.

Oh, Watermelon.

This is the season when you are your best. We sing your praises. You are green, but that is only the outside. You get there all the same every time. Within—at the heart—you are quite different—rich, juicy and red. Thy interior part, oh, watermelon, is a well of richness, a liquid symphony of red, black and white, more beautiful than the rainbow even if you have not so many colors. To eat of you is to take a bath in the coolest of water flavored with ambrosia.

How do we eat thee? Well we don't stop for looks. With our nose we shove aside thy black seeds; as deep as we can we plunge our mouth into thy redness. Our mouth is all we want there, but we find our entire countanance often follows suit; but, who cares? it all feels good and so we are glad to bring ourselves for awhile from the wicked world, the evil actions of men and leave behind all else—only for thee. Once in awhile, of course, we emerge to swallow. But that is not often necessary, for a watermelon is a fruit which flows down kind of "so, so;" all sweetness and no mistake.

But every bliss must end and there is a boundary to the watermelon's attractions. Near the rind it is worthless except for preserves. As we are not in the preserving business, we cast the rind aside and sigh because we must again bring ourselves again to the substantial realities of roses that have some thorns to them, How we do regret that watermelons cannot last forever!

—Philipsburg was certainly rendered unusually lively by the re-union of the Bucktails. In the membership are many gentlemen of prominence, who were present with their wives and families. The very successful affair terminated on Thursday evening with a banquet.

THE GIRLS DEFENDED.

Our Milesburg Correspondent Says they do not go to the trains—A Sociable, Personals, Etc.

Some malicious person wrote an article which was printed in the DAILY NEWS of Friday last which stated that our girls were just as "fly" as ever. Now, any person living here knows that the Milesburg girls do not go to the trains and much less flirt with anyone who comes around. The statement was a malicious slander on the character of our girls.

Mr. John Hunter, son of Rev. David Hunter of the Baptist church, and late graduate of Brown University, is now at home, having returned from a tour of the United States and Canada.

The Sons of Temperance will hold a festival on the evenings of Friday and Saturday, the 13th and 14th of September.

Mr. Earnest Eddy, of Lock Haven, is now the guest of his uncle, Mr. L. T. Eddy, of this place.

The Sociable given by the Ladies' Mite Society of the Presbyterian church of this place was held last Saturday evening at the residence of Mrs. Gus Smith. Mr. and Mrs. Smith's geniality and the excellent quality of the cream offered by the ladies combined the two chief elements of success on such occasions. The proceeds of these sociables are devoted to the building fund and Bellefonte friends are cordially invited to call and help the good cause along. The ladies have some fine specimens of needle work which they offer for sale on such occasions.

Miss Millie Bouse, of Tyrone, is now the guest of her grandparents. Miss Bouse is a pleasing young lady and has attracted considerable notice by reason of her extraordinary elocutionary powers.

Mr. Seers, of New York, is visiting Mr. John Hiller at this place.

If you want an elegant job of carpentering you can get it in this borough. There is our citizen, Mr. John Harnish. For proof of what we say just look at his work on Miles' store.

Misses Ella and Laura Church, of Lewisburg, are visiting their brother, Dr. C. B. Church, of this place.

Prof. Geo. P. Bible.

We clip the following paragraph from the *Educational News*, an interesting school publication:

"We learn with regret that Professor George P. Bible is no longer connected with the State Normal School at Lock Haven, Pa. Prof. Bible is one of the rising young men of the State and an excellent teacher whose personal popularity and efficient work will add many students to any institution with which he may connect himself."

Mr. Bible will not be connected with any normal school this year, but will reside in this city and have a class in elocution and will do his usual work at the county institutes. He has heretofore been a drawning card for school institutes and societies and will doubtless so continue. The community will be glad to have him remain among them as a citizen.

Professor Irish is no longer connected with the Normal School here either, but where he intends to make his home we do not know, but think in Ohio. He will likewise continue to visit the institutes in which he has been an instructor heretofore.—*Lock Haven Daily Democrat.*

Be Careful.

We noticed in taking a walk on Wednesday that many people are careless in regard to the condition of the gutters outside their premises. People generally like to see a neat clean town and it is exceedingly disagreeable to see accumulations of dirty water any place. Yet that is just what we saw on Wednesday afternoon. We are of opinion that the gutters should be kept open and these unsightly things should not be permitted to exist. It is easy to keep gutters open in Bellefonte as the town is naturally drained by the sharp grade which prevails in every direction. A little care will accomplish all that is desired.

—One of our exchanges speaks of a millinery store kept by an estimable young lady and said the editor was gratified to see her stocking up. The editor says he was never so astonished in his born days as he was after the paper came out, to meet the millinary lady and have her strike him across the brow with an umbrella, and tell him he was a liar, and that she would tell his wife. He didn't know what she was mad at, and he read the item over a hundred times to see if there was anything spiteful in it.

—That flower bed at the station fairly rivals the highest ideals of beauty. It is symmetrical and lovely beyond description. Rev. Mr. Zeigler, who placed the flowers there, and the watchman who has taken care of them deserve the congratulations of every one of their great achievements.

—While Dr. A W Hafer was in the South he had a most enjoyable visit. He found that the country bordering on the Chesapeake bay is exceedingly productive, and that men who went there only a few years ago to get homes have become very prosperous. Denton, the County seat of Charlotte county, was his destination. He returned on Tuesday evening, feeling much benefited and pleased by the trip.

IT WAS NOT MURDER.

So the Coroner's Jury Decide in the Case of Charles Campi, a Swede.

In Eagleville and vicinity there has been some excitement this week. It was caused by discovering in the waters of Hayes Run, a short distance from Eagleville, the dead body of a man.

The body proved to be that of Charles Campi, a Swede, who worked in that vicinity. It appears that on Sunday last he and a companion divested themselves of their garments and went in swimming. In some way Campi got beyond his depth and was drowned and his companion disappeared.

Campi's body was found the same day and immediately a jury was summoned, mostly composed of residents of Eagleville. The body was taken on a hand car to Eagleville and there the inquest occurred. From the testimony elicited it was decided that Campi came to his death by accidental drowning. He has a sister living in Williamsport. The funeral took place in Eagleville, the Lutheran minister of that place officiating.

—The number of people who wanted to accompany the Pennsylvania railroad's last excursion to Niagara Falls was greater than could be carried which has induced the company to run another excursion to the same noted resort. It will start next Thursday, the 29th. It will be a personally conducted trip with tourist agent and chaperon. The round trip tickets will cost only $10 and will be gone until September 7. For rates and detailed information consult the nearest ticket agent.

Only Temperance Bitters Known.

VINEGAR BITTERS

VEGETABLE — FREE FROM — ALCOHOL — PURELY — DR. WALKER'S CALIFORNIA — VINEGAR BITTERS — TUREK

The Only Non-Alcoholic Vegetable Medicine put up in Liquid Form ever discovered.

It is not a vile fancy drink made of rum, poor whisky, or refuse liquors, spiced and sweetened to please the taste, but a purely vegetable preparation, made from native California herbs.

Twenty-five years' use have demonstrated to millions of sufferers throughout the civilized world, that of all the medicines ever discovered Vinegar Bitters only possesses perfect and wonderful curative effects upon those troubled with the following diseases, viz:

Dyspepsia, Rheumatism, Catarrh, Neuralgia, Headache, Boils, Scrofula, Skin Diseases, Jaundice, Gout, Piles, Billiousness, and all other diseases arising from blood impurities, and as a Vermifuge it is the best in the world, being death to all worms that infest the human system.

It is always safe to take at any time, or under any condition of the system, for old or young or for either sex. It is put up in two styles. The old is slightly bitter, and is the stronger in cathartic effect. The new style is very pleasant to the taste and a perfect medicine for delicate women or children. Each kind is distinctly marked on top of cartoon.

In many families keep both kinds on hand, as they are a complete medicine chest.

As a Family Medicine, for the use of ladies, children and men of sedentary habits, the New Style Vinegar Bitters has no equal in the world. It is invaluable for curing the ills that beset childhood, and gently regulates the diseases to which women at every period of life are subject.

Ladies, get a bottle from your druggist and try it. If your druggist has not the New Style Vinegar Bitters, ask him to send for it. If you once try it you will never be without this priceless remedy in the house.

VINEGAR BITTERS.

The only Temperance Bitters known. It stimulates the Brain and quiets the Nerves, regulates the Bowels and renders a perfect circulation through the human veins, which is sure to restore perfect health.

GEO W DAVIS, of 169 Barrone St., New Orleans, La., writes under date May 26th, 1888, as follows: "I have been going to the Hot Springs, Ark., for fifteen years for an itching humor in my blood. I have just used three bottles of Vinegar Bitters, and it has done me more good than the springs. It is the best medicine made."

JOSEPH J. EGAN, of No. 75 West St, New York, says: "Have not been without Vinegar Bitters for the past twelve years, and consider it a whole medicine chest in our family."

MRS. MATTIE FURGUSON, of Dryden, N. Y. says: "Vinegar Bitters is the best medicine I ever tried; it saved my life."

T. F. BAILEY, of Humboldt, Iowa, says: Vinegar Bitters cured me of paralysis ten years ago, and recently it cured me of rheumatism."

VINEGAR BITTERS.

The Great Blood and Health Restorer. Cures all kinds of Headache, also Indigestion and Dyspepsia.

Bellefonte Republican,

EDWARD T. TUTEN, - - Editor

Local Department.

—Who can complain of this charming weather?

—If the Democrats want a candidate for State Treasurer, what is the matter with C. M. Bower, Esq?

—Conductor Casner, of the Newton Hamilton camp meeting train, collected nearly 7000 tickets during the continuance of camp,

—All soldiers entitled to transportation to Gettysburg are expected to fill out their applications at once and send them to Adjutant General Hastings.

—Mrs. F S Jerome, President of the Yellow Cross Volunteer Nurses Association, was brutally attacked by two ruffians at Johnstown on Friday night of last week.

—R M Magee, Esq., who with his family now reside in Philadelphia, is spending this week in Bellefonte. He reports that he is much pleased with his Philadelphia life.

—Profs. W. E. Brown, of Spring Mills, and B. M. Campbell, of this place, will soon open a music store in our town. They will keep all kinds of musical instruments, and also expect to organize an orchestra.

—The ladies of the Methodist church will hold a lawn social at the parsonage on East Linn street, on Thursday evening of this week. The best of refreshments will be served. Everybody is cordially invited to attend.

—Mr. George Dale, of College Township, is a candidate for the nomination for Associate Judge and asks the Republican party to nominate him. With so many excellent names from which to select, the convention will certainly make a wise choice.

—There are few persons who have not at some time suffered from an attack of the annoying hiccough, and it is claimed that if the sufferer will grasp the pulse of the left wrist with the right hand, and press it for one minute, the annoyance will instantly cease. Try it the next time you have an attack.

—On the 21st of August the death of Mr. C S Demick occurred in Osceola, Nebraska. He had been traveling in California and Florida for his health, but did not receive the benefit he expected and returned home to Osceola, Neb., to die. His wife was formerly Miss Sarah Lambert, sister of O B Lambert and C W Lambert.

—The latter part of last week brought a series of railroad accidents. One of these was a collision near Petroleum W. V., on the Baltimore and Ohio railroad. The colliding trains were filled with passengers, one of them containing chiefly officials of the road. The fireman and engineer were killed and about twenty of the passengers injured.

—Mr. Edward Cooke has broken ground for a handsome new dwelling house which he will erect on the site of Mr. John Cooke's coal office. The house will be quite a large building and will be an ornament to that part of the town, making a lovely home for him and his beautiful bride. The coal office will be moved further back on the same lot.

—Barnum is quite unfortunate with his circus. One section of it met with a very destructive accident last week between Governeur and Montreal, Canada. Many valuable horses were killed which money cannot replace as years of training are required to bring them to their condition of excellence. In mere money value Barnum & Bailey estimate their loss at $40,000.

—Mr. John Walter, of this county, has a son, Scott Walter, who is filling a responsible railroad position in Huntingdon, Indiana. We notice by a recent issue of the *Evening Herald*, printed at Huntingdon, that "Mr. Scott Walter, of the paint shop, has been sent to put the finishing touches on switch engine, No. 14." This shows that his superior work out there is duly appreciated.

—The Philadelphia *Record* says: The members of the Red Cross Society are making a systematic effort to secure the presence of President Harrison at Johnstown before he shall return to Washington. At the instance of the Society a messenger was sent all the way to Washington bearing a letter asking the President to stop at the stricken city on his return from the West. The invitation was from the Red Cross Society, but was borne by a resident of the city who went through the flood. Secretary Halford said that the President has made no provision for such a stop.

—A new scheme has been concocted to catch the unwary granger. Is is related that a clerical looking person, with a timid looking young man and woman, recently drew up to a farm house and stated that the couple had taken a whimsical notion to be married among the handsome surroundings of the farmer's home and they would pay him liberally for the privilege. The farmer at once gave his consent and in addition served the trio with a fine dinner, for which he received $40, giving the parties a receipt. The receipt turned up in the hands of an innocent party as a promissory note for $400.

THE VOICE OF THE PEOPLE.

An Old Soldier's View of the Gettysburg Expedition.

HOWARD, Aug. 26, 1889.

Mr. Editor: Would you be kind enough to give a small space in your valuable paper for the benefit of Pennsylvania soldiers that did not amount to anything during the late Rebellion, or rather disgraced soldiers of the Commonwealth of Pennsylvania. If the Pennsylvania Legislature thought it cost too much to take them all why not wait until they could furnish transportation to all Pennsylvania soldiers. It is a disgrace to any soldiers of the Keystone State that did not happen to be at Gettysburg. Where were the balance of the Pennsylvania soldiers? Were they lying in the brush or were they all skulkers? or did they never see any fighting? Were there no Pennsylvania troops at Vicksburg or at Pittsburg Landing? Did they not do their duty where they were assigned at the same time the soldiers of Gettysburg were engaged in the battle? And surely they deserve the same right to go to Gettysburg as do those who took part in it. Not that I want to take any laurels from the soldiers who participated in the Gettysburg fight. But why should they go there free any more than any other Pennsylvania soldier who did his duty?

I do not blame the soldiers for this, for nine in ten claim it is not right that only the soldiers who took part should go free and the other Pennsylvania soldiers be excluded from the same privilege; and to make it an offense for any other soldier to try to go as such.

Soldiers of Gettysburg and soldiers of other battles, it is a disgrace to all honorably discharged Pennsylvania soldiers, dead or alive, and it is a disgrace to all loyal citizens of the State; as Pennsylvania always took pride in her soldiers, not selecting one from the other, but treating all alike.

We do not know who is to blame for this, but there is some one responsible. Time will tell whether it was the Legislature, or the committee to whom it was referred, or the Governor, who had opportunity to veto it after it had passed.

If the Governor did not think it just, why not veto it, or send it back for amendment, so it would take all honorably discharged soldiers to Gettysburg? There are lots of soldiers who would like to see the battle ground who are too poor to pay their own expenses there and back.

One thing more and then I will close. There is a time not far distant when the soldiers that were not lucky enough to be at Gettysburg will be there and it will be remembered as long as was that at Gettysburg. I would like to hear some thing from some one out of these Centre county companies that were at Vicksbury 4th of July, 1863.

OLD SOLDIER FROM CENTRE CO., PA.

Charley Noll's Frightful Fall.

From the Lock Haven *Express* we take the following particulars of the way in which Charley Noll met with such a terrible accident in that city on Saturday morning:

Charles Noll, a young man who is employed at the telephone exchange in this city, met with an accident this forenoon by which he received serious if not fatal injuries. The line running to the new Normal School building became crossed with telegraph wires and Noll was sent to discover where the difficulty was.

When near Neener's green house, on West Main street, he climbed a pole and was engaged in doing something with the wires when the pole broke off near the ground and fell, carrying the young man with it. The pole fell upon him and he was knocked senseless. He was taken at once to the office of Dr. Watson who dressed his wounds. The physician found that Noll's jaw was broken and he was also cut and badly bruised in many places. Fears are entertained that the young man has sustained serious internal injuries.

Charles Noll came to this city about six weeks ago to take the place of Edward Troxell, who went to Williamsport where he is employed in the exchange office. His parents reside in Bellefonte. He is an intelligent young man and graduated at the Bellefonte High School last spring.

BROUGHT HOME MONDAY MORNING.

Charley was brought from Lock Haven to his home here on Monday morning. We understand that the physicians in attendance are hopeful that he will recover, and his youth and good constitution are much in his favor.

—Dr. Webster Fox, in the journal of the Franklin Institute, maintains that the majority of blind people have lost their sight for want of proper care during infancy, and that nurses of mothers who heedlessly expose an infant's eyes to the glare of the sun for hours, may be laying the foundation of more serious evils. He protests against permitting young children to use their eyes in study, and declares that the eyes are not strong enough for school work until the age of seven to nine. Children should not be allowed to study much by artificial light before the age of ten and books printed in small type should be absolutely prohibited in the school room.—*Tyrone Daily Herald*, Dr. Fox may be correct, but we doubt his opinion. We know of instances of persons who were permitted to read by artificial light as soon as they could read at all; who have used their eyes in the faintest twilight as long as they could tell one word from another, and who, at quite a venerable age, have excellent vision which was never impaired in the least. As a rule, impaired vision is due to some other cause than mere carelessness on the part of nurses or improper use of eyes when young.

Pennsylvania Points.

A bird's nest with eggs was found on the running gear of a Reading Railroad freight car at Reading.

Henry Gruver, a Bethlehem miller, is the owner of an elephant plant which has leaves measuring forty-two inches in length and of corresponding width.

Kleppinger Brothers, of Schoenersville, Northampton county, are the owners of an incubating plant which has produced 5,000 chickens and 2,000 ducks during the past season.

Warren Kenney, a farmer near Erie, met with a singular death on Saturday. He fell from a load of lumber and broke his neck, but was not immediately killed. He was brought to the Hamot hospital for treatment, but while the nurses were adjusting him in bed his neck was slightly turned and he died instantly.

Larry Sullivan and Pat McSurgen went into a sewer excavation at Erie on Saturday to make a connection. The running of an electric motor car over them caused the banks to give way and both men were entombed. Fortunately the shoring kept their faces out of the sand, and when reached they were both still alive, and though very badly injured both will live. It was a most remarkable escape, as there were several tons of sand over them.

A Game of Base Ball.

AS TOLD BY A MILESBURG SCRIBE.

It was remarked to one of our Milesburger's when he asked one of the Flemings to play a game with us that they did not care to play "scrub" nines.

Last Saturday the Fleming's came to Milesburg for the express purpose of "skinning" us out and had an elegant show, their being but four regular players, Hunter, Mattern, Spence and McLaughlin, the rest being mere boys.

Mr. Hunter's pitching was the admiration of all beholders and in a great measure our success was due to his elegant playing. Orbison winded himself, cautioning our pitcher not to get rattled.

Below is given the way in which the club which beat the Altoonas, State College, Spring Mills, etc., "skinned" the "scrub" nine.

The Excursion to Lamar.

On Saturday afternoon the Milesburg Band made a trip to Lamar, Clinton county, being accompanied by many others. The attraction was a festival given by the young people of the place for rather a novel object—the erection a boardwalk through the town. They sold a vast quantity of refreshments and must have realized a very handsome sum of money, and we have no doubt the boardwalk will soon be forthcoming. Three young gentlemen living at Hublersburg combined in giving the Milesburg band a handsome cake. They enjoyed the occasion thoroughly and returned home well pleased with their excellent entertainment and treatment. They will remember the handsome young ladies in an especial manner. Evan Reuben Smith says they are the prettiest he ever saw and B. M. Campbell's Min(a)d was quite monopolized by their attractions.

—Passengers on Day Express, due at Philipsburg at 4.30 p. m. last Thursday made a narrow escape from instant death, says the *Ledger* of that place. As the train was rapidly rounding the last curve on the south side of the big fill, the locomotive jumped the track and ploughed into the bank on the right hand side of the road, only escaping being plunged down that terrible embankment by about two feet. The passengers were thrown from their seats and the cars instantly filled with steam, smoke and dust. The terror and consternation which followed can easily be imagined. From 15 to 20 Philipsburgers were on the train, returning from camp meeting, and they hadn't yet recovered from their fright on reaching town at 6 o'clock.

—Two visitors from Ohio who passed through Bellefonte on their way home Monday evening were Miss Bessie DePeyster, of Canton, Ohio, and Mr. Geo. H Allen, of Kent, Ohio. They have been the guests of Postmaster Charles Everett and family of Lemont and also of the family of Squire Thompson. They are cousins and during their visit in the East have enjoyed themselves greatly. For instance, Mr. Allen says that in the last ten days he has gained ten pounds. It is Mr. Allen's first visit to Centre county for ten years.

—A commercial agent who was in Johnstown on Thursday was surprised and mortified at discovering that there were at least five liquor saloons to one grocery in the town. He saw in every one he passed five or more men standing at the bar drinking, and was led to inquire if that is the use to which the sufferers put their money, after the terrible ordeal through which they passed.

TWO PICNICS.

WHICH OCCURRED NEAR SNOW SHOE—ALSO OTHER LIVELY GOSSIP FROM THAT VICINITY.

The potato crop in Snow Shoe and vicinity is not a success. Many people complain that the stalks die prematurely and the potatoes are rotting very fast.

Your correspondent, while driving in the vicinity of Snow Shoe, noticed that many of the small pine trees are dying. Their death is caused by being stung by some kind of beetle. At one point between Snow Shoe and Clarence you can count a score of withered and dying pines, some of which will measure twelve inches in diameter.

The employes of the Beech Creek railroad held their annual picnic in the grove near Peale station. All the freight trains were run on Sunday in order to allow the men a day off to attend the picnic. There were eleven car loads from Beech Creek, Lock Haven, Jersey Shore and Williamsport, and several car loads came down from Philipsburg and went to Peale. They had a grand time, and all voted thanks to the Beech Creek Railroad Company which furnished the trains to the picnicers free of charge.

Last Saturday was a great day for the members of St. Mary's Catholic church. Everybody and his wife attended the picnic which was held in the Snow Shoe park for the benefit of the church. It was a grand success, the receipts being about $700.

Mr. and Mrs. B F Keller, of Washington, D. C., and the two Misses Whip, of Frederick, Md., also Miss Ella Rhone, Martha Keller and Charles E Keller, of Bellefonte, made an excursion over the celebrated Switchback and took dinner in Snow Shoe, one day last week.

Mrs. Mollie McMullen, her two sons Edward and Arthur, and her little daughter, Miss Beatrice, all left last Tuesday afternoon to visit friends in the State of Iowa. They expect to be gone several weeks.

Rev. J W Bedford has sold his valuable horse to T B Budinger. The reverend will leave on the Beech Creek road, next Tuesday, for Harrisburg, where he will attend the Prohibition convention, and then he will take a vacation of a few weeks and visit friends and relations in West Virginia and Southern Pennsylvania.

Mr. Wm Stewart and his brother Finley, sons of Doctor M Stewart, of Pine Glenn, will start for Arizona on about the 12th of September. They intend to go into the lumber business extensively in that far-off land of the setting sun.

Anyone wishing a pleasant drive should drive up the north fork of Beech Creek from No. 10 to the German Settlement. We know of a party who drove through there and they had to unhitch their horse and lift their buggy over logs and trees twelve different times during the trip.

Grandpap John Harper, who makes his home with his son at Fowler station, visited his Snow Shoe friends last week. The old gentleman is as spry as a cricket and as hearty as a pine knot, notwithstanding the fact that he is past four score years.

D. G. Davis, one of Snow Shoe's prominent citizens, moved his family to Punxsutawney, where he and his boys have secured profitable employment in the mines. Mr. Davis is an excellent machinist and is the owner of a machine shop at this place. The people of Snow Shoe are very sorry to see him go.

Miss Jennie Albright and Miss Lena Hirsch, of Tamaqua, Pa., after spending several weeks very pleasantly with relatives and friends in Bellefonte and Snow Shoe, left for their home on Monday.

Mr. John Reagan, who has charge of some public works near Tyrone, spent Sunday with his family at Snow Shoe. That locality agrees with John as we never saw him looking better than now.

Mrs. Mike Kelley left on the Beech Creek Railway Saturday morning to visit her friends in Houtzdale.

Miss Fannie Murphy, a vivacious young lady from Philadelphia, and Miss Garvin, one of Tyrone's charming young ladies, are the guests of the latter's sister, Mrs. Thomas McCann.

Miss Celia Parker, of Carlisle, Pa., is spending a few weeks with her Snow Shoe friends.

Mrs. J. L. Neff, of Roland, and Maud Sanders, of Renovo, were guests at the residence of Dr. J. W. Neff several days last week.

Miss Sarah Bland, of Bellefonte, was visiting her sister, Mrs. S. S. Thomas, last week.

Miss Maud Glenn, of Altoona, is visiting friends at Snow Shoe.

Mr. Asbury Cheesman, one of Milesburg's business men, spent Sunday at his home in Snow Shoe.

A little child aged about one year, son of Mr. and Mrs. Charles Norton, died on Saturday afternoon and was buried in the Askey graveyard on Monday. The funeral took place at 2 o'clock p m.

Miss Bessie McCafferty spent Sunday in Snow Shoe.

—The excursion train to Niagara over the Pennsylvania Railroad next Thursday is largely advertised. On Thursday morning the tourist leaves here at 9.32 and will connect with the special train of parlor cars for Niagara, the daylight journey being a most delightful one through diversified country and arriving at Niagara before midnight. Then there will be ten days of sight seeing. The rates from Bellefonte and return are $7.35.

Personal Pencilings.

Miss Emma Neff, of Lock Haven, is visiting relatives at Zion.

Messrs. Will and John Furst are visiting friends in Lock Haven.

Mr. James Schofield and two daughters are visiting in Philipsburg.

Mr. Lee B. Woodcock is at home again after a visit with friends in Altoona.

Mr. A. C. Hoy won a huge cake for walking to Snow Shoe the other day.

The Misses Hammond, of Williamsport are guests at the residence of Mr. S. M. Buck.

J. A. Atlee and wife, of Tyrone, are visiting friends at Centre Hall, this county.

Misses Jennie Noll and Ella Smith, of Milesburg, were callers at this office on Friday.

County Treasurer Goss and family departed on Wednesday for a visit at the sea shore.

Mr. Jerome Harper departed westward on Tuesday and will tarry awhile in Chicago.

Miss Bessie McCafferty, of this place is visiting, friends in Snow Shoe and Philipsburg.

Mr. Absalom Mingle, of Millheim, who died on Tuesday of this week was buried on Thursday.

Mrs. Dr. Coolidge and children of Scranton, Pa., are guests at the residence of S. D. Ray, Esq.

Mr. and Mrs. Frank Montgomery and child returned from Atlantic City on Thursday evening.

Mr. Sam Brooks has gravitated to Altoona where he has a position in Adams Express office.

Ex-Sheriff Munson, of Millheim, is critically ill. His son-in-law, Mr. John Toner, of this place, is with him.

Mr. George Garrettson, of Huntingdon, arrived on Thursday to visit his uncle, John C. Miller, on Howard street.

Mr. Joseph L Holter, of Howard, while in Bellefonte on Friday, paid this office a profitable and pleasant visit.

Mr. and Mrs. L. A. Schaeffer spent Wednesday and part of Thursday in Philipsburg, enjoying that quite lively town.

Mr. George Chase, Jr., of New York, who was formerly connected with the steam heating works here, is at present visiting in town.

Mr. and Mrs. Frank Keller of Washington, D. C., are still here. They returned to town on the Lemont train Wednesday evening.

Hon. P Gray Meek is fitting up his handsome residence with the steam heat and will luxuriate in its grateful warmth next winter.

Candidates Fleming, Rynder and Schaeffer all felt very much amused when they met in one car the other day, all going to the same place.

Mrs. Lizzie Kitzmiller formerly a resident of this place, but now of Williamsport is visiting friends in Bellefonte and Snow Shoe this week.

D. T. Williams and Capt. J. H. Bozart, of Snow Shoe, George Fullerton, of Port Matilda, and Mr. David Glenn, of this place, attended the Bucktail reunion in Philipsburg.

Rev. Owen Hicks, of Millheim, who has been indulging in quite an extended trip around the circle at the various camp meetings, passed through Bellefonte Friday on his way home.

Messrs. G. G. and F. S. McGirk now residents of Lewistown, formerly living near Lemont, are visiting their brother at the latter place. They were callers in Bellefonte, on Friday.

James Kinsloe, who used to be telegraph assistant here and is now in Tyrone, visited Bellefonte on Wednesday. He is mounting upward in height with wonderful rapidity.

Mr. George T Bush has taken an agency for the Manufacturers Accident Indemnity Company of Geneva, N. Y. It is the company in which he was insured when he met with the recent accident and which paid him so promptly.

Mr. G. T. Goldthwaite, of New York, who on a previous occasion spent his summer vacation at the home of Rev. James P. Hughes here, is again visiting at the same place. He is now a Junior of Harvard College. He is a son of the distinguished Dr. Goldthwaite, of New York.

Mr. B. M. Campbell, the baritone virtuoso who instructs the Fillmore Band, is a printer and has in his brief but lively career also been a newspaper manager. He gave us one evidence of his ability on Thursday in the distribution of a case of brevier which was done in a style equal to the best.

Captain Reber received Monday the Adjutant General's account for camp pay of the men of Company B. This is another evidence of the promptness of Adj't Gen. Hastings in dispatching business. Before Hastings was Adjutant General it required at least two months before the men received their pay. The men will receive their pay on next Friday evening on the regular drill night of the company.

A DESERVED WARNING.

If the Boys Do Not Heed It they Will Be Punished.

We are in receipt of the following, which we are glad to publish, as it is an important word in season and we cordially second what it says:

BELLEFONTE, August 23, 1889.

EDITOR DAILY NEWS: It has come to the notice of the writer that a party of half grown boys of our town (who, by some unfortunate circumstances, have become the possessors of shot guns) are in the habit, daily, of going to the surrounding cover, and recklessly and wantonly and in direct violation of both law and humanity, shooting game and insectivorous birds, indiscriminately.

I know of several broods of young pheasants, within the past week, scattered, and helplessly exposed to the ravages of foxes and other natural enemies, by the killing of the parent birds. Now, I desire to insert this in the nature of a notice to these young miscreants, who are well known, that the next offense will result in a prosecution that may make August pheasant dear eating.

A SPORTSMAN.

In an accompanying note the writer further says: "The law in relation to both game and insectivorous birds is being openly and shamelessly broken, and I know of no act more heartless than the killing of a mother pheasant at this season of the year followed by a brood of eighteen or twenty young, too helpless to exist without her care. It is a burning shame, an act against which the Legislature has imposed a heavy fine. Any sportsman guilty of it does not deserve the name. It is such violations of law that is depopulating our forests of game." In addition to what is so well said by "Sportsman," we suggest that all the sportsmen here about unite in enforcing the game laws and they will have the aid of all the citizens in so doing.

Personal Pencilings.

Mr. Ager, of Lock Haven, spent Sunday in Bellefonte.

Miss Emma Hoffer, of Huntingdon, is visiting her sister, Mrs. A. C. Mingle.

Our friend, Mr. Henry G Campbell, of Rock Springs, transacted business in Bellefonte on Monday.

Miss Clara Shrom, is at home again after a very pleasant visit of about a month in Philipsburg.

Miss Puella Dornblazer, of Mackeyville, is convalescing from her recent illness of typhoid fever.

Captain Kress, of Lock Haven, who is in the West, received a stroke of paralysis the other day, but is said to be recovering.

Mr. B. M. Campbell, the musical ladies man, attended the picnic at Lamar on Saturday, accompanying the Milesburg band.

Miss Mary Rone is at home again after a delightful visit in Altoona. And is accompanied by her cousin Miss Mary Kerlin of that place.

Miss Petrikin's select school for children will begin on the second Monday —9th day—in September. She will accept a limited number of scholars.

James A. Crogan, contracting agent of the Sparks Bros. & Stevens show, was in town to-day booming his show for its appearance at Bellefonte on September 5th.

J. W. Gephart, Esq., came home on Tuesday morning from his European trip, he having been absent since the 19th of June. He looks as if he enjoyed the journey and the pleasant experience.

A Bright young gentleman from Pottsville is expert at tennis, but don't always play when he wants to. He waited in vain at the Curtin street court the other day for his lady friends to arrive and indulge in a game.

Mr. Amos Lucas, of Philipsburg, and his brother, Albert Lucas, of this place, visited their brother A G Lucas, at Marsh Creek, on Sunday. They found that his illness has become quite serious. We hope, however, he will recover.

Mr. W. E. Hendrixson has severed his connection with Joseph Bros. store, the reason being that he considered that the close confinement was injuring his health. The Messrs. Joseph were sorry to part from him and if after a month's recreation he becomes quite well again he may return to the position, which was quite congenial to his tastes. We hope the recreation will prove beneficial.

—Pittsburg is to have an exhibition, the principal buildings for which are practically completed and are handsomer than even their designers imagined they would be. The principal building is a splendid triumph of iron and glass. The exhibition will open on September 4; admission only 25 cents.

Mr. Reuben Smith

is going to Nittany Valley this week. While there he will call on everybody and everybody is requested to give him an especially kind reception. He is representing this paper and will have something beneficial to say to all whom he meets.
